BY-LAWS

Certified copy of By-Laws accepted and adopted at the Annual Town Meeting held at the Chelmsford Centre Town Hall, on February 8, 1926 and as approved by the Attorney General.

POWERS OF SELECTMEN

- 1—No person shall break or dig up any sidewalk, street, or highway or place thereon any staging or other temporary structure or move any building into or along the same without a written permit from the Board of Selectmen. Any person having such permit shall, before the expiration of the same restore the sidewalk, street or highway to its original condition. Any permit issued under the provisions of this section shall be in force for such time as the Selectmen may specify and shall be subject to such other conditions as they may prescribe. The Board of Selectmen shall have the right to revoke any permit at any time during the progress of the work, or may require a bond either before the commencement of the work or during its progress to ensure its proper performance. Proper barriers shall be erected and lights placed from sunset to sunrise during the entire progress of any of the above work.

POLICE REGULATIONS

- 1—No person shall play ball or throw snowballs, balls, stones, or other missiles within or upon any streets or public ways of the Town, or play at any games obstructing free passage of the same.
- 2—No person shall pasture any cattle, horses or other animals, either with or without keeper upon any street or way in the Town.
- 3—No person shall swim or bathe in any public or exposed place in a nude condition.
- 4—No person shall ride, drive or cause to be driven any horse or vehicle over that part of the street which is being mended, repaired or paved, if a watchman or signs prohibiting passage are placed.
- 5—No person shall, without the permission of the Selectmen, explode firecrackers or any other explosives, or discharge fire arms of any type in any streets or ways of the Town, or near any vehicle passing thereon, or near any dwelling-house, except in performance of some legal duty.
- 6—No person shall behave in any indecent or disorderly manner, or use profane, indecent, threatening or insulting language in any public place or on any sidewalk or street of the Town, or near any house, to the annoyance or disturbance of any other person.
- 7—No persons or person shall congregate noisily in or about the streets, stores or public places of the Town, or disturb the public quiet by the unauthorized ringing of bells or blowing of horns unnecessarily, or deface, pull down or injure any building, fence or sign, or other structure in the Town, or trespass on any property or wrongfully remove therefrom any tree, plant, shrub, fruit or vegetable, or create any disturbance of, or in, any lawful meeting of the citizens of this Town.
- 8—No person shall affix with paste or other means any bill, placard or notice, or shall write any figures, words or device on any building, fence, pole or wall in the Town.
- 9—No person shall coast or slide on any sled or other vehicle in or about any public street or way in the Town, unless the Selectmen shall have designated such street or way as one upon which coasting or sliding is permitted.
- 10—No person shall throw posters, handbills, flyers, advertising sheets, waste or rubbish in the public parks, streets or ways of the Town.

PENALTIES

Any violation of these By-Laws shall be punished by a fine of not less than two dollars or more than twenty dollars.

A true Copy Attest.

(Signed) HAROLD C. PETTERSON, Town Clerk.
Boston, Mass., July 30, 1926.

The foregoing By-Laws are hereby approved with the exception of No. 8, which is hereby disapproved.

(Signed) JAY R. BENTON, Attorney General.

REPORT OF AN AUDIT OF THE ACCOUNTS OF
THE TOWN OF CHELMSFORD
FOR THE PERIOD FROM JANUARY 1, 1925
TO MARCH 16, 1926

Made in Accordance With the Provisions of
Chapter 44, General Laws

June 14, 1926

Chelmsford, Massachusetts.

January 1, 1927.

To The Citizens of the Town of Chelmsford:

In accordance with Section 40, Chapter 44 of the General Laws of the Commonwealth of Massachusetts I herewith publish the State Audit made in the spring of 1926.

Sincerely,

HAROLD C. PETTERSON,
Town Clerk.

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Division of Accounts

State House, Boston.

June 14, 1926.

To the Board of Selectmen,
Mr. George Rigby, Chairman,
Chelmsford, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the accounts of the Town of Chelmsford for the period from January 1, 1926 to March 16, 1926, made in accordance with the provisions of Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Examiner of this Division.

Very truly yours,

THEODORE N. WADDELL,
Director of Accounts.

TNW-AMH

Mr. Theodore N. Waddell,
Director of Accounts,
Department of Corporations and Taxation, State House, Boston.
Sir:

As directed by you I have made an audit of the books and accounts of the Town of Chelmsford for the period from January 1, 1925 to March 16, 1926, and submit the following report thereon:—

The financial transactions of the town as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection were examined and verified.

The books and accounts of the treasurer and collector were examined and checked in detail. The recorded receipts were checked with the records in the several departments collecting money for the town and with the other sources from which money was paid into the town treasury; and the disbursements were checked with the warrants authorizing the treasurer to disburse town funds and with the town accountant's records.

In checking the accounts of the town treasurer, many errors and omissions were discovered, especially in the check book records of the transactions with the banks; and in order to reconcile the bank accounts with the statements furnished by the bank, it was necessary to check in detail all deposits and checks paid through the bank for the past four years.

The treasurer's cash book has been balanced at the end of each month, but apparently no accurate reconciliation of the cash book balance with the actual cash on hand and in banks has been made for several years. It appears from the examination of the check book stubs that an attempt was made to reconcile the check book balance with the bank statement of September 1, 1925, but it was found that there were many errors in the check book records prior to that date and that the list of outstanding checks as recorded at that time was incorrect.

The actual cash on hand and in banks March 16, 1926, after making the necessary adjustments of the many errors and omissions discovered, was found to be \$1,732.56 short of the amount called for by the books of the treasurer and collector. At the completion of the examination of the accounts of the treasurer and collector, April 30, 1926, the cash on hand was again counted and the bank accounts reconciled with the statements furnished by the banks, it being found that the cash on hand and in the banks exceeded the amount called for by the books of the treasurer and collector by \$397.28.

The commitments of taxes for the levies of 1920 to 1925, inclusive, were examined and reconciled with the warrants, the recorded abatements were checked with the assessors' records of abatements granted, and the outstanding accounts were listed.

The outstanding accounts were further verified by mailing notices to a large number of persons whose names appeared on the books as owing money to the town. Among the replies received was one claiming that a tax of 1923 of \$213.17 had been paid, but as no reply has been received to our request that the receipted bill be forwarded to this office for examination, the amount is included in the outstanding accounts. Three replies were received claiming that taxes of 1923 aggregating \$68 and four replies that taxes of 1924 aggregating \$60.69, had been paid, but as these replies were received after the completion of the examination, the persons making the claims have been advised to take the matter up with the local officials.

In verifying the tax accounts it was necessary to check in detail the recorded receipts as shown by the cash book with the commitment book which had not been posted to the commitment books and that entries had been made on the commitment books which did not appear on the cash book.

The accounts of the collector, as collector of taxes for the Chelmsford Water District and the North Chelmsford Fire District, were examined and the necessary adjustments to correct errors and omissions were made.

The careless and unbusinesslike methods of the treasurer and collector in keeping the accounts of his office necessitated a considerable amount of detailed checking in order to straighten out the accounts, thereby materially adding to the time and cost of audit.

The accounts of the treasurer and collector should be balanced monthly at least, and the cash on hand and in banks should be reconciled with the cash balance, as called for by the books, by an actual count of cash on hand and a reconciliation of the bank accounts with statements furnished by the banks.

Appended to this report are tables showing a reconciliation of the cash accounts of the treasurer and collector, and summaries of the tax and assessment accounts.

The books and accounts in the town treasurer's office were examined and checked in detail. The recorded receipts were checked with the treasurer's records and the disbursements were checked with the warrants and with the treasurer's books.

The appropriation accounts were compared with the town clerk's records of appropriations voted by the town. The ledger postings were checked with the books of original entry, the ledger was footed, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town March 16, 1926.

The classification book was examined and checked with the appropriation accounts in the ledger.

The town clerk's records of receipts from licenses issued for the town and for dog and hunting and fishing licenses issued for the county and the state, respectively, were examined and checked. The recorded payments to the town, the county and the state treasurers were verified by a comparison with the receipts on file, and the cash on hand was verified by an actual count.

The savings bank books and securities representing the investment of the several trust and investment funds in the custody of the town treasurer and the insurance fund commissioners were personally examined and listed, the income was proved and the recorded disbursements were verified.

Tables relative to the trust and investment fund transactions are appended to this report.

In addition to the departments and accounts mentioned, the records of receipts of the janitors of the town hall, the fire department, the moth department, the sealer of weights and measures, the milk inspector, the town farm, the Adams Library, the North Chelmsford Library, and the cemetery department were examined and checked, the payments to the treasurer being checked to the treasurer's books and the cash on hand being verified.

The surety bonds of the town treasurer and tax collector and of the treasurer of the insurance fund commissioners were examined and found to be in proper form. The bonds of the town clerk and the town accountant were found to be in the form of continuation certificates. This form of bond does not, in my opinion, properly protect the town and I would recommend that new bonds be obtained annually, the same as for the treasurer and collector.

The bond of the treasurer of the trustees of the Adams Library could not be located.

While engaged in making the audit, I received the hearty co-operation of the several town officials, and I wish, on behalf of my assistants and for myself, to express appreciation for the assistance rendered and the courtesies extended.

Respectfully submitted,

EDW. H. FENTON,
Chief Examiner.

Warrant for Annual Town Meeting

FEBRUARY 1, 1926 and FEBRUARY 8, 1926

COMMONWEALTH OF MASSACHUSETTS

Middlesex, ss.

To Donald F. Adams, a Constable of the Town of Chelmsford,

GREETING:

In the name of the Commonwealth aforesaid you are hereby requested to notify and warn the legal voters of said Chelmsford to meet in their several Polling Places, viz.:

- Precinct 1, Town Hall, Chelmsford Centre.
- Precinct 2, Town Hall, North Chelmsford.
- Precinct 3, Historical Hall, West Chelmsford.
- Precinct 4, School House, East Chelmsford.
- Precinct 5, Liberty Hall, South Chelmsford.
- Precinct 6, Golden Cove School House, Westlands.

on MONDAY the FIRST DAY of FEBRUARY, 1926, being the first Monday in said month, at 12 o'clock noon, for the following purposes:
To bring in their votes for the following officers:

- Moderator for one year.
- One Selectman for three years.
- One Overseer of the Poor for three years.
- One Assessor for three years.
- Town Treasurer and Collector of Taxes for one year.
- One Member of the Board of Health for three years.
- One Constable for one year.
- One School Committeeman for three years.
- Two Trustees of Adams Library for three years.
- Tree Warden for one year.
- One Insurance Fund Commissioner for three years.
- One Cemetery Commissioner for three years.
- All on one ballot.

(The polls will be open from 12 m. to 8 p. m.)

and to meet in the Town Hall at Chelmsford Centre on the following MONDAY, the EIGHTH DAY of FEBRUARY, 1926, at 9.30 o'clock in the forenoon, then and there to act upon the following articles, viz.:

ARTICLE 1. To hear reports of Town officers and committees; or act in relation thereto.

ARTICLE 2. To raise and appropriate such sums of money as may be required to defray Town charges for the current year.

ARTICLE 3. To see if the Town will authorize the Selectmen to act as its agent in any suit or suits which may arise during the current year; also in such other matters as may arise requiring in their judgment the action of such agent and to employ counsel therefor.

ARTICLE 4. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenues of the current financial year.

ARTICLE 5. To see if the Town will vote to appropriate from money already in the hands of the Treasurer a sufficient sum with which to meet unpaid bills of 1925; or act in relation thereto.

ARTICLE 6. To see if the Town will vote to authorize the Selectmen to contract with the Lowell Electric Light Corporation at the then prevailing price per light for the following additional lights, and will raise and appropriate sufficient money to meet the expense thereof, viz.:

Five lights on Richardson Road;
Three lights on Edmunds avenue, East Chelmsford;
Four lights on Locust Road;
Four lights on Robbins Hill Road;
One light on Westford Road;
One light on Gorham street;
Four lights on Dalton Road;
Three lights on Fletcher street;
Seven lights on Russell Mill Road;
Three lights on Dunstable Road;
Five lights on Billerica street;
Eight lights on Hunt Road;
Six lights on Pine Hill Road;
or act in relation thereto.

ARTICLE 7. To see if the Town will vote to raise or borrow the sum of Twelve Thousand Dollars (\$12,000), or what other sum, for the purpose of continuing the construction of the Boston Road, the Acton Road and of repairing Billerica street, two-thirds of the expense to be borne equally by the Commonwealth and County of Middlesex; or act in relation thereto.

ARTICLE 8. To see if the Town will vote to raise and appropriate the sum of Two Hundred and Fifty Dollars (\$250), or what other sum, with which to carry on the work of the committee appointed at the Annual Town Meeting of 1924 "to have charge of suitably marking historic spots within the Town," which committee was "to continue in office until all such places are marked;" or act in relation thereto.

ARTICLE 9. To see if the Town will vote to sell and convey a certain lot of vacant land supposed to have been formerly of Homer Stevens and wife, situated on the Dunstable Road, so called, acquired by the Town for the purpose of building a school house; or act in relation thereto.

ARTICLE 10. To see if the Town will consent to the laying-out of a new road extending southerly from the West Chelmsford Road for a distance of about one thousand feet over and along the westerly side of the new cemetery, so called; or act in relation thereto.

ARTICLE 11. To hear and act upon the report of the Special Committee appointed at the last Annual Town Meeting to investigate and report relative to the "Town Forest Act;" or act in relation thereto.

ARTICLE 12. To see if the Town will vote to purchase for a public domain a certain lot of stump land situated in the southerly part of Chelmsford, containing about twenty-five acres, commonly known as the Thanksgiving Ground, formerly property of the late Daniel Gage; also an adjoining piece of sprout land containing about twenty acres, belonging to E. H. Russell; also a certain lot of stump land situated on Chestnut Hill, containing about twenty-five acres, belonging to Fred L. Fletcher, or any one or more of them as provided in General Laws, Section 19, Chapter 45, entitled "Parks, Playgrounds and Public Domains;" or in the alterative, will vote to purchase said lots of land or any one or more of them, for the purposes of forestation, as provided in General Laws, Section 35, Chapter 132, entitled "Forestry," as amended by the Acts of 1924, Chapter 24, and will raise and appropriate a sufficient sum to cover the purchase price of such real estate and the cost of procuring and setting out forest trees thereon; or act in relation thereto.

ARTICLE 13. To hear and act upon the report and recommendations of the Committee on Renaming streets appointed at a special Town Meeting held in 1925; or act in relation thereto.

ARTICLE 14. To see if the Town will vote to discontinue the following public or Town ways, namely:
Chestnut Hill Road, in part;
Canal Road, in part;
North Road to the Lowell line;
or act in relation thereto.

ARTICLE 15. Under Article 11. To hear and act upon the report of a Special Committee, relative to the "Town Forest Act."

REPORT OF THE TOWN FOREST COMMITTEE

Your Committee appointed at the last Annual Town Meeting for the purpose of investigating the merits of the Town Forest Act, so-called, and its subsequent amendments and for the purpose of investigating into the advisability of accepting the same report as follows:

First of all to start at what should properly be the beginning of our investigation we inquired into what the approximate amount of standing timber might be in this Town now, as against twenty-five years ago.

Two million feet would surely be a safe estimate of the amount of lumber within the Town's limits at present of a dimension that one would want to cut, and of this amount there is probably no single stand of over two hundred thousand feet.

Twenty-five years ago from information given us by men who are in a position to know, an estimate of fifteen million feet of standing (timber) in this town would be very conservative. Surely, there figures warranted the belief by the Committee if this Town has a criterion of a general condition throughout the state that it would be well to investigate the general statistics relating to the states' and nation's timber resources.

The facts thus presented by the various organizations that are working for conservation of the timber resources of this country are overwhelming and are convincing of the need of concerted action by every municipality which has any lands available for re-forestration purposes.

We find that the question of the acceptance of the "Town Forest Act" so-called by which the Town is permitted to acquire land for the purpose of re-forestration has been acted upon favorably by over sixty towns and cities in the State and that one hundred other cities and towns have within the past year appointed town forest committees, the same as ourselves to report back as to the advisability of accepting the act.

We hereby recommend that the Town accept the "Town Forest Act" so-called as provided in General Laws, Chapter 132 Section 35, as amended by the Acts of 1924, chapter 24 and we also recommended that a standing Town Forest Committee of three members be appointed said Committee to serve without compensation.

Signed,

Edward B. Russell, Chairman
Frederic A. Snow

It was voted to accept the report and place the same on file.

It was voted to accept the "Town Forestry Act" so-called, as provided by the "General Laws, Chapter 132 Section 35 and as amended by the Acts of 1924 chapter 24 to read as follows:

Towns may acquire by purchase, gift or bequest, lands for the purpose of forestration and may reclaim and plant such lands. The said department may upon application in such form as the forester may prescribe furnish such towns free of charge with seedings for the plantings of their lands.

The Committee appointed, to be known as the "Town Forestry Committee" and to serve without compensation, appointed by the Moderator are, Edward B. Russell, George B. Wright, and Patrick S. Ward.

Under Article 12. And a motion made by Edward B. Russell, that the Town raise and appropriate \$700.00 to purchase land mentioned in article 12 was defeated.

Under Article 13. It was voted to accept the report of this Committee and that the names of the streets, roads, squares, etc. as reported by said Committee be adopted as the official names thereof, and that the Selectmen be directed to publish the names of the streets and descriptions thereof in the next Town Report.

A rising vote of thanks was extended to this Committee for the good work accomplished the Committee of Arnold C. Perham, Frederic A. Snow, John McAdams, James F. Leahey and Henry C. Shedd, and A. Heady Park.

To the Voters of the Town of Chelmsford:

In accordance with a vote taken at the Special Town Meeting held on May 5, 1925, the undersigned committee have canvassed the names and locations of the Streets, Avenues, and Roads of the Town of Chelmsford, and submit herewith an alphabetical list of same.

Under Article 14. It was voted to discontinue that part of Chestnut Hill Road from Old Westford Road at F. L. Fletcher's to junction of road from Chamberlain's Corner and Canal Road from a stone bound near the residence of Joseph Jesus easterly to the Billerica line near Brick Kiln Road, also a road from the North Road near the top of Drum Hill in a southeasterly direction to the Lowell line near the residence of Mr. Remmes.

Under Article 15. It was voted to raise and appropriate the sum of \$1000.00 for the purpose of paying land grade or drainage damages, caused by or result from the laying out, alteration or reconstruction of the State Highway on Littleton Street, and the Selectmen are hereby authorized to sign an indemnity agreement in behalf and for the Town to the limit of \$1000.00.

Under Article 16. It was voted to instruct town officials having any property of the Town to sell, to advertise, said property and call for competitive bids on same 14 days before date of sale except when otherwise voted at an Annual or Special Town meeting, this is exclusive of any Town Farm property bids are to be sealed and opened publicly, this vote does not apply to goods valued by the Selectmen under the sum of \$25.00.

Under Article 17. It was voted to raise and appropriate the sum of Four Hundred Dollars (\$400.00) the money to be expended by and the director to serve in co-operation with the Middlesex County Trustees for County Aid to Agriculture in the work of the Middlesex County Extension Service, under the provision of Sections 40 to 45, Chapter 128, General Laws of Massachusetts.

Perley W. Kimball was elected director.

Under Article 18. Regards to the appropriation of \$250.00 with which to grade Moore Street, it was voted to dismiss this article.

Under Article 19. It was voted (unanimously), to raise and appropriate the sum of \$500.00 with which to grade, gravel and oil Sprague Avenue from Gorham Street to the Brick Kiln Road.

Under Article 20. It was voted to raise and appropriate the sum of \$250.00 for the purpose of constructing a sidewalk beginning at the termination of the present sidewalk on the North Road, so-called, on the easterly side in front of Mr. Thayer's residence and continuing northerly to the junction of the Dalton and North Roads, a distance of approximately 1100 feet, more or less.

Under Article 21. It was voted to raise and appropriate the sum \$1,000.00 for the purpose of improving and extending the Fire Alarm System, the money to be expended under the direction of the Board of Fire Engineers.

Under Article 22. It was voted to appoint a Committee to investigate and report at the next annual Town Meeting as to the advisability of obtaining a fire house site at the West Village, the Committee to be appointed by the Moderator, the Moderator appointed as this Committee David Billson, Elmer Trull and Edwin Stearns.

Under Article 23. The Committee appointed at the Special Town Meeting May 5, 1925 to investigate the need of better fire protection in the Centre, South and West Villages, particularly with reference to the pumper report as follows:

In the Centre we recommend that a site be secured at once for the erection in the near future of a fire house large enough to properly accommodate the necessary fire apparatus, the fire alarm system and supplies.

We recommend the gradual extension of the fire alarm system by the addition of a number of fire alarm boxes annually and also the installation of at least one auxiliary alarm box in the high school and the new grade school for better protection of lives and property.

We recommend the immediate purchase of a new motor pumper, or triple combination as it is called of not less than 500 gallons capacity rather than to install a pump of the present double combination which is over four years old and was not built to accommodate a pump. To install such a pump would cost three fifths the price of a new one and when complete would be of small capacity and questionable durability. A pumper located at the Centre would afford protection to much property outside of the hydrant area but near available water ways, this applies to the South Village to a great extent. Water can be pumped from Baptist Pond and the outlet brook River Meadow Brook and Beaver Brook there are 134 houses and 64 Barns besides many other buildings such as garages, hen houses, ice and greenhouses all within 1500 feet of the named water ways. The above property with contents has an estimated market or insurance value of about one half million dollars and is one quarter million dollars which of course does not include the exempt property such as furniture, hay and farm implements etc. or land.

It was suggested to the Committee that a dry hydrant could be located in the square at the South Village and conected with the pond therefore we caused a survey to be made which showed the square to be 11 feet higher than the surface of the pond. We wish to extend our thanks to J. C. and W. T. Monahan, C. E., who made this survey for us without remuneration. There are many other places from which water could be pumped such as the Concord River, the Lowell hydrants at the

Town Line on Gorham Street and Carlisle Street, numerous wells, cisterns and small brooks that contain water six months in a year.

We find that the West Village can be effectively covered by the pumper at the North Village except where the distance of the fire from Stony Brook was too far to be reached by a small pump it would then be necessary to call for a larger one if we had it at the Centre. We suggest that a Committee be appointed to investigate relative to the need of a fire house site in the West Village.

We especially recommend that property owners in sections not having an adequate water supply available for use by a pumper take steps where possible to provide a water hole or basin near their buildings. This could well be done by groups of owners of little expense to each.

ARNOLD C. PERHAM
ARCHIBALD COOKE
DAVID BILLSON
Committee.

It was voted that the Town raise and appropriate the sum of \$7500.00 for the purchase of a triple combination motor pumper for the use of the Fire Department. The purchasing committee to be the Board of Fire Engineers, Arnold Perham, David Billson and Archibald Cooke.

Under Article 24. In regards to the selling of one piece of motor fire apparatus belonging to the Fire Department it was voted to dismiss this article.

Under Article 25. It was voted to appropriate from money already in the hands of the Treasurer the sum of \$350.00 for the purpose of procuring plans and specifications of a new heating system in the two school buildings on Princeton Street, North Chelmsford, and also in the Quessy School at West Chelmsford, under the direction of the School Committee.

Under Article 26. It was voted to appropriate the sum of \$100.00 for the purpose of procuring technical advice and preliminary layout of a flush toilet system in the Quessy School at West Chelmsford, the money to be appropriated from money already in the Treasury and to be expended by the School Committee.

Under Article 27. It was voted to authorize the School Committee to dispose of the Old North Row School House near McLarney's Square.

Under Article 28. It was voted that the Town accept and allow King Street so-called as laid out by the Selectmen on Jan. 25, 1926 and shown by their report duly filed in the office of the Town Clerk. Without any expense to the abutters.

Under Article 29. It was voted that the Town allow an extension of Evergreen Street as laid out by the Selectmen on Jan. 25, 1926 and shown by their report duly filed in the office of the Town Clerk.

Under Article 30. It was voted that the Town allow and accept New Fletcher Street as laid out by the Selectmen on Jan. 25, 1926 and shown by their report duly filed in the office of the Town Clerk.

Under Article 31. It was voted that the Town accept and allow Fern Street as laid out by the Selectmen on Jan. 25, 1926 and shown by their report duly filed in the office of the Town Clerk.

Under Article 32. It was voted that the Town accept and allow Albina Street as laid out by the Selectmen on Jan. 25, 1926 and shown by their report duly filed in the office of the Town Clerk.

Under Article 33. It was voted that the Town raise and appropriate the sum of \$1000.00 for the purpose of grading Wilson Street.

Under Article 34. It was voted that the Town raise and appropriate the sum of \$300.00 for the purpose of purchasing six reflex beacons for the Street Department.

Under Article 35. It was voted that the Town appoint and the following committee is hereby appointed, the three members of the Park Commission, William Shanks and Arnold C. Perham to consider and report at a future meeting as to what changes or improvements, if any, should be made in the Public Common at Chelmsford Centre, together with an estimate of the probable expense of such changes as they may suggest or recommend.

Under Article 36. It was voted to appoint a committee and the following committee is hereby appointed, the School Committee, George W. Day, Fred L. Fletcher, James R. Grant and George Rigby, to investigate and report as to the disposition or use of the old grammar school situated on the North Road at Chelmsford Centre. Said report to be made at, or before, the next Annual Town Meeting.

Under Article 37. It was voted to raise and appropriate the sum of \$530.00, for the purpose of paying land damages growing out of the relocation of the Dalton Road, so-called.

Under Article 38. It was voted to raise and appropriate the sum of \$575.00 for State Aid.

Under Article 39. It was voted to raise and appropriate the sum of \$2000.00 from money already in the hands of the Treasurer to be used as a Reserve Fund at the discretion of the Finance Committee as provided in General Laws, Chapter 40, Section 6.

It was voted to appropriate from the Excess and Deficiency Fund the sum of \$20,000.00 to be applied toward appropriations of 1926, to be used by the Assessors for this purpose as free cash.

Voted to adjourn this meeting at 5.05 p. m.

The Assessors and Collector of Taxes have received considerable criticism in the past few years, for not getting the tax bills out before October first, some saying it used to be done, and they could not see any reason why it could not be done at the present time. If those persons were at all familiar with the work of assessing and collecting the taxes, we think they would understand why it takes more time than in former years. If the assessors do not have the help and cooperation of the tax payers which the law requires, it will take more time to determine the amount of property and find the tax rate.

The Collector can not make out and deliver the tax bills until he gets a commitment list from the Assessors. Following will be found a table for the comparison of valuations, appropriations, state and county tax, rates and persons assessed on property, for the past twenty years, showing in part the extra work of the two offices. You will note, there are about 1,009 more people paying taxes on property in the town than in 1906. In 1906, 1907 and several years prior there were five men on the Board of Assessors. Since that time there have been but three, with the duties increasing each year; at that time there were 135 transfers to be copied from the records at the Registry of Deeds, now there are close to 300. In 1908 the North Chelmsford Fire District, and in 1914 the Chelmsford Water District were established. The property in these two Districts must be assessed, and separate commitment lists given to the Collector.

The Assessors must be familiar with the boundary lines of these districts which divide the property of many of the taxpayers. A list of assessed polls and a list of women giving the address for the current year, the previous year, occupation and age, must be made for the use of the Registrars. A list of all male persons liable for military duty, a list of the dogs in town, and many other returns must be made to the Town and State officials.

Each year the Director of Accounts calls for the valuations and abatements of the three previous years, to determine the borrowing capacity of the town. We have caused an article to be inserted in the warrant for the acceptance of an Act passed and approved by the legislature in 1921 allowing the appointment of assistant assessors.

By their help the assessors would not be so long doing the field work, and would get to the office work much earlier than under the present conditions.

We hope the voters will give it due consideration and by voting for the acceptance of the Act, they can prove their desire to cooperate with the assessors in their efforts to determine the tax rate and get the tax bills out on an earlier date.

Table showing the increase in Valuations, Appropriations, State and County Tax, rate and persons assessed on property in the past twenty years.

1926	7,564,805.00	274,828.00	36,772.90	30.00	2,353

The above table shows that the work of Assessors and Collector is nearly double what it was in 1906, with the town taxes, outside of the Fire and Water District. Do you wonder why they are late in getting out the bills?

CEMETERY COMMISSIONERS' REPORT

January 15, 1927.

To the Board of Selectmen, Chelmsford, Mass.
Gentlemen:

The Cemetery Commissioners submit their annual report.

In Forefathers' there has been only four interments this year, showing that this cemetery is being gradually filled up. The hedge on Littleton street side has been trimmed, cutting out the old dead wood, making a great improvement.

In Pine Ridge, all the avenues have been regraveled and it does seem as though we should not be troubled with the mud as in former years. The general care has been given to the lots and avenues.

The general appearance of Hart Pond Cemetery has been greatly improved. The old section, facing the pond, has been all newly graded.

At Riverside and West, the general care has been given and they make a very good appearance.

At Fairview, we have relocated and graveled Twist road, awaiting the vote of acceptance by the Town.

We feel that we are indeed fortunate in having superintendents who take great pride and interest in the general appearances of our cemeteries.

Respectfully submitted,

ARTHUR O. WHEELER,
BAYARD C. DEAN,
RALPH P. ADAMS.

REPORT OF THE FOREST WARDEN

January 1, 1927.

To the Board of Selectmen of Chelmsford.
Gentlemen:

The same plan of co-operation between the Forest Warden and Board of Fire Engineers which has been in effect for several years has been continued with very good results and the various department chiefs have been appointed Deputy Forest Wardens.

Beside the district chiefs five Deputy Wardens have been appointed: Allan Adams, Raymond Sargent, Fred L. Fletcher, Walter Merrill and Fred Merrill.

In September the resignation of Allan Adams as Deputy Warden was accepted with regret as he has given very efficient service.

There have been 120 fires during the year, some of which due to the very dry season, had been very difficult to extinguish.

Permits for fires in the open air are required by state law between March 1st and Dec. 1st. Permits may be obtained in the various precincts as follows: Prec. 1, Ray E. Sargent; Prec. 2, Joseph Ryan; Prec. 3, Archie Cook; Prec. 4, Otto Grantz; Prec. 5, Sidney Dupee and Prec. 6, Robert Henderson.

SIDNEY E. DUPEE,
Forest Warden.

**A REPORT OF THE WORK DONE BY THE MIDDLESEX COUNTY
EXTENSION SERVICE IN THE TOWN OF CHELMSFORD
FOR THE YEAR 1926**

An appropriation of \$400.00 was made at the annual meeting in support of the Middlesex County Extension Service, through the County Board of Trustees for County Aid to Agriculture. The following is an account of the work done by this organization in Chelmsford during the year 1926.

In agriculture a total of fifty-four farm visits were made to those who requested personal service. A series of evening meetings on fruit growing was arranged; there was an average attendance of twenty-five at these. Speakers were brought to these meetings from the Massachusetts Agricultural College and the Market Garden Field Station. One poultry meeting was held at which the aim to grow healthy chicks was discussed, and a number of follow-up visits dealing with poultry problems were made by the agent. One alfalfa meeting was held to show the success with which this crop could be grown, and information given as to the proper methods to use in starting this crop. Assistance was given in the testing of soil and the seeding of alfalfa. One cow test member receives monthly visits from the cow test agent, who keeps accurate records as to feed cost and production figures. Judges were furnished for the local fair.

Fruit growers received during the year cards and circular material relative to the spraying and care of their orchards.

In Home-Making a demonstration of the preservation of fruits and vegetables was held, at which eighty-three were present. Two millinery meetings were conducted in the spring and fall. A talk was given to the Parent-Teacher Association on the home-making projects developed by the county. In West Chelmsford one of the largest clothing groups in the county was organized, and much excellent work was done.

In the boys and girls 4-H club activities work was carried on in clothing, and canning, poultry, gardening, and room beautiful for the room beautiful contest. One hundred twenty-six boys and girls were enrolled under the supervision of eight local leaders. Carl Johnson, and Raymond Vicary, and Lucy Potter were awarded a two-day trip to the Massachusetts Agricultural College for outstanding club work. Three exhibits were held during the year at which the boys and girls showed the results of their club work. Club members in this town were in competition with 3690 boys and girls in Middlesex County.

Six motion picture shows were held with a total attendance of 2285.

In addition to local meetings held several county-wide meetings were conducted, such as the county picnic at the Market Garden Field Station, the annual meeting of the Extension Service at Waltham, and sectional meetings of fruit growers and poultrymen. These were attended by many Chelmsford people.

PERLEY W. KIMBALL, Town Director.

REPORT OF INSPECTOR OF ANIMALS

Board of Selectmen.

Gentlemen:

The annual inspection of animals for 1926 together with stable inspection was performed during the early part of the year as ordered by the State Division of Animal Industry. There were 941 dairy cows, 125 young cattle, 17 bulls, 335 swine, 4 goats and 1 sheep in 201 stables. The stables are located as follows:

Precinct	1	2	3	4	5	6
Stables	82	25	13	32	35	14

Seven cows were quarantined and afterward condemned and killed as tubercular. Two others were quarantined and later released. A complete report of all animals inspected and the stable conditions has been reported to the state authorities.

All cattle reported as suspected of having tuberculosis have been inspected and proper action taken.

A majority of the hog owners are now having their hogs inoculated that they may be immune from hog cholera, several owners who did not take the necessary precautions, lost many of their hogs.

More dogs were reported as having bitten persons during the year than ever before, they were quarantined for a period of two weeks and then released if no symptoms of rabies developed. Fortunately we have had no positive case of rabies in dogs, or glanders in horses.

NORTH CHELMSFORD LIBRARY CORPORATION

REPORT OF THE TRUSTEES

The Directors of the North Chelmsford Library Corporation beg to submit the following report for year 1926.

On Dec. 15th 1926, the annual meeting of the Corporation was held in the Library. Reports of the various officers and Librarian were heard and approved and placed on the records.

The Librarian's report was satisfactory, showing that the Library had been open 150 sessions, 129 new books had been added and a great many books had been replaced and rebound. The circulation for the year was 13,452.

We are pleased to report a steady increase of borrowers, having at the end of our fiscal year 1926, a net increase of 82 new names.

A great number of our books have to be sent to the bindery, these books being in constant circulation, and we would solicit the co-operation of the borrowers, as more careful treatment tends to add life to the books.

Respectfully submitted,

ARTHUR O. WHEELER, Pres.

SARAH E. SHELDON,

LORRAINE S. BUTTERFIELD,

Directors.

ANNUAL REPORT OF BOARD OF FIRE ENGINEERS

To the Selectmen of Chelmsford, Mass.
Gentlemen:

We herewith submit our annual report of the Fire Department.

This Board of Fire Engineers appointed annually by the Board of Selectmen, was organized this year with Arnold C. Perham as Chief of the department and David Billson and Archibald Cooke as assistant engineers and Archibald Cooke as Clerk of the Board.

The District Chiefs appointed by the Board of Engineers for the term ending May 15, 1927 are :

Wilhelm T. Johnson	District No. 1.
Joseph D. Ryan	District No. 2.
Anthony B. Anderson	District No. 3.
Otto Grantz	District No. 4.
Sidney E. Dupee	District No. 5.

This year at the last Annual Town Meeting \$7,5000.00 was appropriated for the purpose of purchasing one piece of Motor Fire Apparatus with this money your Board of Fire Engineers have purchased and installed in the Center Village a Maxim 500 gallon pumper which we think will be of great benefit for the protection of life and property and in the near future will help to reduce the fire insurance rates of the property owners in the Center Village.

The Alarm System of the Town has been greatly improved in the last year, for the Center Village and the Westlands two new alarms have been purchased and installed. The wiring on Dalton Road has been changed from temporary to stationary poles which will greatly improve the alarm system.

In the North Village two new Alarm Boxes have been purchased, one to be installed on the corner of the West Chelmsford and Groton Roads, and one to be installed on the corner of Dartmouth and Middlesex Streets, this work will be done in the course of a few weeks.

The Board of Selectmen and the School Committee have installed three auxiliary boxes one in the Town Hall and one in each of the Princeton Street School.

In the West Village there has been installed a whole new Game-well System composed of the following, indicator, control box, battery rack, nine batteries, about two miles of wire and five outside alarm boxes, which were installed in the following places, corner of School and Main Streets, one in front of the home of Frank Edwards on Main Street, one on Jordan Street, one in front of the George E. Quessey School, and one on the corner of Graniteville and School Streets, this system was made possible partly by public subscription of the Village.

During the year your department has responded to 64 calls for building and automobile fires within the Town limits, and 8 calls from adjoining towns, and 50 grass and brush fires within the town to assist the Forest Warden Department.

Company No. 1. has responded to 28, 2 in Carlisle and 1 in Lowell. No. 2. has responded to 25, 2 in Tyngsboro and 1 in Lowell. No. 3 has responded to 2 and 2 in Westford. No. 4. 0, No. 5 has responded to nine.

Both the Center and North Companys were sent to the Pollard fire in Lowell upon call of the Fire Chief for help.

Company No. 4, has had no building fires in their district during the year but have responded to 14 of the 50 brush fires that the whole department has been called to extinguish.

The total estimated value of building property and contents in the town directly endangered by fire amounted to \$683,470, and the total loss caused by these fires amounted to \$20,175, this is about half the total loss of last year.

The attention of all persons is called to the law forbidding vehicles being driven over fire hose and the parking or driving automobiles where they will hinder the firemen or the apparatus in reaching and extinguishing fires.

We wish to extend our thanks to the police department for there efficient co-operation at fires.

Careful consideration should be given the Center and North Villages regarding new fire stations.

On February 11, 1924 a committee of three was appointed to investigate and report at the following town meeting relative to the purchase of a fire house site in the Center Village, the recommendation of the committee was that the old Grammar School be used as a fire station, we the Board of Fire Engineers recommend that the money be raised or appropriated for this purpose.

Last year in the North Village the Town purchased a fire house site located in Vinal Square, this year the Board recommends that a new station be erected on this site, the present fire house is not located near enough to the center of the village for efficient results or response to fires.

At a conference held in July with the officials of Carlisle, Westford and Tyngsboro an agreement was reached as to the price to be paid for the use of our apparatus when called to their fires.

Permits and Certificates issued during the year 1926 are as follows:

Gasoline Permits	36
Transfers	4
Certificates of Registration (Gasoline Storage)	24
Fireworks Permits	7
Certificates of Registration for Garages	7
Blasting Permits	25

The State law requires that all threads, hose couplings and connections be standardized, this we have done according to law.

The members of your volunteer Fire Department should be commended for the ability, faithfulness and willingness shown in the performance of their duty.

DAVID BILLSON
ARCHIBALD COOKE

REPORT OF THE BOARD OF HEALTH

Chelmsford, Mass.

For the year 1926.

We believe that a careful reading of the reports of the Agent of the Board, Milk Inspector and Meat Inspector will well repay you.

There has been a greater number of cases, over $3\frac{1}{2}$ times of communicable diseases, of which 172 were measles, in the town than we had last year and the Board feels that if the parents had observed the quarantine regulations more carefully that this would not have been the case.

The Board having knowledge that contagious diseases were being communicated by milk bottles adopted a single service bottle which is to be used in all cases where there is a communicable disease in the house and which are not returned to the milk dealer but burned by the householder after the contents have been removed.

These bottles cannot be refilled without laying the person who refills them liable to a fine of \$25.00.

In May the Schick test was given to 182 children. This test the Board wishes to continue every year to keep up the great fight against Diphtheria.

The Board cannot too strongly urge the parents to have all the children Schicked. Consult your family physician and the Board believes that without exception these physicians will approve this test as they have to the Board so many times.

On May 19, a pre-school age clinic was held at the Westlund School.

Thirty children were examined, seventeen boys, thirteen girls. Drs. Scoboria and Varney were the examining physicians.

These clinics can be made of great benefit if the parents carry out the suggestions given them at the time.

On June 30, a state clinic was held for the examination of adults and children for tuberculosis at which time 14 adults and 29 children were examined.

On Oct. 28, another clinic was held to follow up the one of June 30 and at this time 3 adults and 125 children were examined.

These clinics are a portion of the 10 year tuberculosis Program in the state.

In the last 20 years the cases have been reduced in the state from more than 50,000 to less than 25,000 and the Board feels that the parents could well co-operate with the Board in having all underweight children examined and carrying out the suggestions of the state doctors and the nutrition experts which are present at these clinics.

Each parent or guardian receives a written report signed by the Director of the Division of Tuberculosis, which gives a statement of the conditions found in the case of each child examined. For instance the Oct. 28, clinic 6 children were classified as suspects of tuberculosis, 25 with enlarged tonsils and adenoids, 2 cases of heart disease, 13 cases of malnutrition, and in need of dentistry 53.

The conditions in three of these five classes, namely malnutrition, dentistry, tonsils and adenoids, can be easily corrected resulting in greatly improved health to the children, and enabling them to do much better work in the school, and the Board urges that these cases be promptly attended to.

The Board hopes that the parents will appreciate the fact that the doctors who serve in these state clinics are all experts in their line, and that such examination and X-Ray if made by outside physicians would cost heavy in each case.

The Board is very glad of the splendid co-operation of both school physicians, Dr. A. G. Scoboria and Dr. Fred E. Varney who have personally attended these clinics and brought their patients in to be examined and X-Rayed, and who have urged parents to avail themselves of the service of these clinics in the fight to keep tuberculosis out of our public schools.

The Board wishes to thank the School Committee and the School Physicians for their co-operation in the past year, also, for the excellent work done by the school nurse as agent for the Board.

Agent of Board of Health.

MILK INSPECTOR'S REPORT

January 1, 1927.

To the Honorable Board of Health.

Gentlemen:

I have the honor to submit the report of the Milk Inspection department for the year beginning January 1, 1926.

There were seventeen dealers licensed to deliver milk from wagons, twenty-four stores were registered to sell milk; and five stores were registered to sell oleomargarine. Twenty-three dollars were collected for licenses.

One hundred four inspections of milk plants were made and one hundred seventeen dairy farm visits were made.

Seventeen samples of milk were seized from stores.

Seven hundred thirty-one samples were seized from dealers; 525 samples were examined for solids and fat content; 206 samples were tested for bacterial content. Two hundred ten sediment tests were determined.

The samples seized from the stores all complied with the Standard.

Thirty-eight samples seized from wagons were below Standard in solids, or fat, or solids and fat. Forty of the bacterial samples were higher than 200,000 bacteria per cubic centimeter, four samples having a count of over a million. One hundred twenty-six samples had a

bacterial count of less than 100,000. The lowest bacterial count was 400, while the highest count was 1,643,000.

The 210 sediments were gauged as follows: two double zeros, three zeros, 114 number ones, all passing inspection; there were 58 sediments called number twos, they were not satisfactory; and there were twenty-seven number threes and six number fours, which did not pass inspection.

Respectfully submitted,

MELVIN F. MASTER,
B. S. in Chemistry.

REPORT OF THE TRUSTEES OF THE ADAMS LIBRARY

The meeting of the Trustees on February 13, 1926, was adjourned to February 20, when the organization for the new year was effected as follows: Chairman, Albert H. Davis; Secretary, Mrs. E. R. Clark; Treasurer, Rev. Wilson Waters; Purchasing Committee, Mrs. E. R. Clark; Prudential Committee, Albert H. Davis, Rev. Wilson Waters; Committee on Periodicals and General Oversight, Miss Frances Clark, Miss Lottie L. Snow, Rev. Wilson Waters. Mrs. Ida A. Jefts was continued as Librarian.

The Building and Grounds have been kept in excellent order, and are an ornament to the Town.

The value of such an institution is more and more appreciated as an adjunct to the educational advantages which Chelmsford affords to its citizens. A large addition has been made to the number of borrowers.

The Librarian reports:

New Borrowers	168

Duplicates of such books as are most used by pupils in the schools have been placed in the Library. The Trustees endeavor in every way to aid students, in the schools or elsewhere.

Mrs. Charles E. Bartlett has presented 62 books to the Library. Mrs. Henry Bartlett has presented 37 books to the Library. Miss Frances Clark has presented one book to the Library.

Mr. Robert Hill has deposited in the Library for safe-keeping a number of curious chrysaline formations found on his premises.

The full amount appropriated by the Trustees for books is necessarily governed by the amount required for running expenses, and so has to be made near the end of year.

The Purchasing Committee always careful in the selection of books,

sometimes finds it impossible to make purchases in time to have the bills come in before the Treasurer's books are closed. This will explain the large amount appearing in the Treasurer's account for 1926 as expended for books.

To see if the Town will vote to appropriate out of money already in the hands of the Treasurer the sum of Two Hundred and Fifty Dollars (\$250), to cover the amount of the judgment against the Town in an action of tort brought by Ellen Herson, and the further sum of Fourteen and 20-100 Dollars (\$14.20) to cover the amount of the judgment against the Town in an action of tort brought by Arne Olsen; or act in relation thereto.

Article 8. To see if the Town will strike out Section eight (8) under the Police Regulations of the by-laws of the Town and substitute therefor and adopt as a part of said by-laws the following:

8. No person shall affix with paste or other means any bill, placard or notice or shall write any figures, words or device on any building, fence, pole or wall be-

longing to the Town and located therein;
or act in relation thereto.

Article 9. To see if the Town will vote to raise and appropriate the sum of Four Hundred Dollars (\$400), or what other sum, and elect a director, the money to be expended by and the director to serve in co-operation with the Middlesex County Trustees for County Aid to Agriculture in the work of the Middlesex County Extension Service, under the provisions of Sections 40 to 45, Chapter 128, General Laws of Massachusetts.

Article 10. To see if the Town will vote to authorize the Selectmen to transfer to the jurisdiction of the Town Forestry Committee that part of the Town Farm property adjacent to the inter-section of the Turnpike Road and the Russell Mill Road, consisting of approximately thirty-five acres; or act in relation thereto.

Article 11. To see if the Town will vote to accept Section 25-A, Chapter 14 of the Acts of 1921, which reads as follows:

“In towns which accept this section the assessors may appoint and remove citizens of the town as assistant assessors, who shall, subject to the supervision of assessors, act as assistant assessors of the town and shall have all necessary powers therefor.

In this section the word towns shall not include cities.”

or act in relation thereto.

Article 12. To see if the Town will vote to raise and appropriate the sum of Four Hundred and Fifty (\$450), or what other sum, for the purpose of grading and re-surfacing Marshall Road; or act in relation thereto.

Article 13. To see if the Town will raise and appropriate from money already in the hands of the Treasurer, the sum of Twelve Hundred Dollars (\$1200), or

what other sum, for the purpose of grading the grounds at the rear and sides of the school house situated on Dalton Road; or act in relation thereto.

Article 14. To see if the Town will vote to raise and appropriate the sum of Twenty-Two Hundred Dollars (\$2200), or what other sum for the purpose of grading and installing macadam walks and drips at the Quessey School, so called, at West Chelmsford; or act in relation thereto.

Article 15. To see if the Town will vote to raise and appropriate the sum of Thirty-Five Hundred Dollars (\$3500), or what other sum for the purpose of installing a flush toilet system at the Quessey School, so called, at West Chelmsford; or act in relation thereto.

Article 16. To see if the Town will vote to raise and appropriate the sum of Twenty-Eight Hundred Dollars (\$2800), or what other sum for the purpose of installing a new heating unit at the South Chelmsford School; or act in relation thereto.

Article 17. To see if the Town will appoint two persons who with the School Committee will constitute a committee to study the general school-housing conditions of the town with special references to the school-housing conditions at North Chelmsford and the possible erection of a new grade school at North Chelmsford, and report their conclusions and recommendations at some subsequent meeting; or act in relation thereto.

Article 18. To see if the Town will appoint a committee of three consisting of a member of the School Committee and two others to investigate and report at the next Town Meeting whether special or annual, on the matter of procuring additional land for playground purposes at the East School, so called; or act in relation thereto.

Article 19. To see if the Town will vote to raise or borrow the sum of Eleven Thousand Dollars (\$11,000), or what other sum, for the purpose of continuing the construction of the Acton Road, rebuilding the Littleton Road, the Lowell Road and Central Square, each so called, two-thirds of the expense to be borne equally by the Commonwealth and County of Middlesex; or act in relation thereto.

Article 20. To see if the Town will vote to raise and appropriate a sufficient sum of money with which to build a shed at the rear of the Town Hall, Chelmsford Center, for the use of the Highway Department; or act in relation thereto.

Article 21. To see if the Town will accept and allow Oak Knoll Avenue as laid out by the Selectmen as shown by their report duly filed in the office of the Town Clerk, or act in relation thereto.

Article 22. To see if the Town will accept and allow Manning Road as laid out by the Selectmen as shown by their report duly filed in the office of the Town Clerk, or act in relation thereto.

Article 23. To see if the Town will accept and allow Stearns Street as laid out by the Selectmen as shown by their report duly filed in the office of the Town Clerk; or act in relation thereto.

Article 24. To see if the Town will vote to discontinue so much of the Twiss Road, so called, as is located between Main Street, otherwise known as the West Chelmsford Road, on the north and a line marked by two stone posts at the southerly terminus of the Twiss Road as re-located, on the south; or act in relation thereto.

Article 25. To see if the Town will accept and allow New Twiss Road as laid out by the Selectmen as

shown by their report duly filed in the office of the Town Clerk; or act in relation thereto.

Article 26. To see if the Town will vote to raise and appropriate the sum of One Thousand Dollars (\$1,000), or what other sum, for the purpose of grading, grassing and improving the Common at Chelmsford Center; or act in relation thereto.

Article 27. To see if the Town will authorize the superintendent of Streets, under the general supervision of the Board of Selectmen, to change the lay-out of Central Square Park located at Chelmsford Center; or act in relation thereto.

Article 28. To see if the Town will vote to transfer the control and management of the Town dump located off Warren Avenue to the Board of Health; or act in relation thereto.

Article 29. To see if the Town will vote "That refunds to the town from money paid out of appropriations of the Board of Health be credited to the appropriations from which they were paid"; or act in relation thereto.

Article 30. To see if the Town will accept from Fred E. Varney, M. D., the gift of a certain lot of land containing about six acres located on the shore of Leach's Pond in that part of Chelmsford known as North Chelmsford, the same to be conveyed by his deed which will be exhibited at this meeting dated December 23, 1926, subject to the express reservation and condition that said land is to be forever kept open as and for a public playground or recreation center under the provisions of Chapter 45, Section 14 of the General Laws, and that such playground be named and known as "The Varney Playgrounds"; or act in relation thereto.

Article 31. In the event of affirmative action under the preceding article to see if the Town will raise and appropriate the sum of Thirty-Six Hundred Dollars (\$3600), or what other sum, with which to grade and improve the land to which reference is made in the preceding article for the purposes of a playground or recreation center; or act in relation thereto.

Article 32. To see if the Town will appoint a committee to consider and report at some future meeting as to what changes and improvements, if any, should be made in Vinal Square at North Chelmsford; or act in relation thereto.

Article 33. To see if the Town will appoint a committee to consider and report at some future meeting as to the advisability of constructing a sidewalk on Gorham Street, so called; or act in relation thereto.

Article 34. To see if the Town will vote to raise and appropriate the sum of Nineteen Thousand Dollars (\$19,000), or what other sum, for the purpose of building a fire station on Middlesex Street at North Chelmsford on land previously acquired by the Town for such purpose; or act in relation thereto.

Article 35. In the event of affirmative action under the preceding article, to see if the Town will appoint a committee to have charge of the building of such a fire station; or act in relation thereto.

Article 36. To see if the Town will vote to raise and appropriate the sum of Seventy-Five Hundred Dollars (\$7500), or what other sum, for the purpose of remodelling for the use of the Fire Department, the grammar school house situated on the North Road at Chelmsford Center; or act in relation thereto.

Article 37. In the event of affirmative action under the preceding article, to see if the Town will appoint a

committee to have in charge of the remodelling of said grammar school house; or act in relation thereto.

Article 38. To see if the Town will vote to appropriate from money already in the hands of the Treasurer, a sum not exceeding Two Thousand Dollars (\$2000) to be used as a Reserve Fund at the discretion of Finance Committee, as provided in General Laws, Chapter 40, Section 6; or act in relation thereto.

Article 39. To see if the Town will vote to raise and appropriate the sum of Four Hundred Dollars (\$400), or what other sum, for State Aid; or act in relation thereto.

AND YOU ARE DIRECTED to serve this Warrant by posting attested copies thereof at the Post Offices in the Center of the town, South Chelmsford, North Chelmsford, and West Chelmsford, and at the School House, East Chelmsford, and at the Golden Cove School House, Westlands, seven days at least before the time appointed for holding the first meeting aforesaid.

HEREOF FAIL NOT, and make return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of holding the first meeting aforesaid.

REPORT OF SCHOOL COMMITTEE

Your committee herewith submits its report to the citizens of Chelmsford for the year ending December 31, 1926. Your committee feels that the year 1926 has been a very successful one both from a financial and educational point of view. Our Parent-Teachers' Associations in the various sections of the town have shown an unusual interest in our school affairs and have co-operated in a very wholesome manner with all the school faculties and school committee. Our Superintendent has kept in close touch with the work done in all our schools. Splendid co-operation has been manifested by all concerned in the educational system for the welfare of our schools. Whereas much repair work and many improvements have been made in the several buildings throughout the town, much more remains to be done to put the buildings in proper condition for school purposes.

A brief summary of the work accomplished during the past few years is presented for your interest. During the summer of 1923 the Highland Avenue School was repainted on the outside, thus putting it first-class condition. At the old grade building at the Center all the walls of the different rooms were re-decorated and the ceilings whitened, thus producing attractive, homelike conditions for the pupils there for the past three years. Many other repairs were then needed but the Committee did not think it wise to lay out more money there as they hoped that the town would shortly remodel the old building or build a new one to accomodate the grade pupils at the Center. How well their hope has been fulfilled in the erection of a new building at the Center we are all aware.

During the summer of 1924 the Highland Avenue School was entirely re-decorated in the interior. Minor repairs were made at the two Princeton Street Schools, the High School, the Westlands School and South Chelmsford. The grounds were graded and seeded at the South Row School and a new wire fence built about the same. A well was driven and a pump installed in one of the cloak rooms and a dry well was dug to care for the waste water. The exterior of the Quessey School was painted and a temporary outbuilding constructed to replace the one that was burned. During the summer the two-room building at East Chelmsford was remodeled into a modern four-room building, thus making it possible to re-organize the work so as to have only two grades to a room instead of three grades. This improvement not only did away with the congestion in the rooms but has very much increased the opportunity for more efficient teaching.

During the summer of 1925 the South Row School was re-modeled so that it is now practically a model one-room school with entrance through the vestibule, new hardwood floor, a jacketed stove in the north-east corner furnishing uniform heat and ventilation. It was painted outside and inside and all desks and seats were shellacked and varnished. At the South Chelmsford School the grounds were graded so as to take the water away from the building. At the Westlands boiler and fan repairs were made. Electric lights have been installed in the Highland Avenue and the two Princeton Street buildings and the Quessey School. For the past two years all the basements of our buildings have been whitened and desks and seats shellacked and var-

nished by the janitors with the help of the bus drivers under the direct supervision of the Chairman of the School Committee, Mr. Frank Lupien. The grounds in East Chelmsford were graded and seeded and a fence built about same. Grading and seeding were also done at the Highland Avenue School which added much to the appearance of that building. The grounds at the rear of the new Princeton Street School were graded and a new retaining wall built.

This past summer new steam heating units were installed at the two Princeton Street Schools and the Quessey School. We are glad to report that these heating units are adequately heating and ventilating the above buildings and that there is no trouble now from coal gas in the class-rooms. A material saving in fuel has also been noticed.

Last Spring the Committee employed Professor Tyler, Sanitary Engineer of the Massachusetts Institute of Technology to survey the conditions for improving sanitary facilities at the Quessey School and we have received the report and specifications for the installation of same. We hope the citizens of the town will see fit to undertake this project this summer.

This past summer new cement walks and drips were built to and about the old Princeton Street School, also concrete walks were built at the High School and Highland Avenue School. The old Princeton Street School was re-decorated last summer and the South School was also re-decorated. This puts the interior conditions of all buildings in first-class shape with the possible exception of the new Princeton Street School which should be re-finished within a year or two. One building namely the Westlands, should be painted on the exterior very soon. Last summer the two tennis courts at the High School were re-finished and are now in good condition.

The transportation problem is one that should receive the sober consideration of the tax payers of Chelmsford. In the year of 1923 the town was transporting 310 pupils daily. Now 440 pupils are carried to and from school daily. Obviously this necessitated an increase in cost, and in order to relieve the crowded conditions at the North and West sections of the town, Mr. Marinel was supported by the School Committee in the purchase of a new and modern bus. Whereas the congested conditions then existing have been temporarily relieved, all busses are crowded at present and something of a permanent nature must be done in the near future.

This fall an evening school for the instruction in the fundamental subjects was established at the Princeton Street School. Two classes were organized and the enrollment is now in excess of thirty. We hope that the people of Chelmsford will give their sincere support to this undertaking since the cost is exceedingly small and the results are very gratifying.

A great deal more could be included in this report but if you will kindly read the reports of our Superintendent of Schools and that of our High School Principal along with this one, we feel that you will have a thorough knowledge of what has been done and what should be done for the best interests of the schools of Chelmsford.

Thanking all the citizens for their past loyal co-operation and anticipating the same in the future, we remain,

FRANK J. LUPIEN.
CHARLES H. CLOUGH.
WILLIS L. MacCOMBS.

REPORT OF SUPERINTENDENT OF SCHOOLS

TO THE SCHOOL COMMITTEE AND CITIZENS OF CHELMSFORD:

I am pleased to submit my fourth annual report as Superintendent of Schools, the 53rd in the series of such reports.

I also transmit to you a "Financial Summary" the usual statistical tables and the reports of the other executive and supervisory officers, all of which deserve your thoughtful attention.

PROBLEMS

It is our belief that the parents and citizens of the town should always be kept well informed of any special problems confronting their school officials. Therefore we hope to call to their attention certain problems that are facing them, as parents and taxpayers, as well as you, their representatives of the School Department.

The transportation problem is one that has required much study by the Committee the past fall. The total number of pupils transported has increased from 310 in the fall of 1923, to 440 pupils in the fall of 1926, or an increase of 41.9%. Our facilities are two, large town owned busses and two smaller busses, privately contracted for, the same as we had in 1923. We feel we have reached just about the limit of our ability to transport any more pupils. This fall on several trips the busses were crowded and when this condition is reached, the Committee does not wish to be held responsible for the safety of the children. This crowded condition was finally overcome by assigning certain pupils to a different bus or to a different building, but the limit of re-adjustment in this manner, with our steadily increasing enrollment is just about reached. It seems the committee must accept one of three alternatives; reduce the amount of transportation by the adoption of a rule, that no pupil shall be transported unless he or she lives a mile and a quarter or a mile and a half from the school to which he is assigned; increase our transportation facilities by the purchase of an additional bus; or recommend the building of a new school house, so located as to relieve greatly the amount of transportation required of our present facilities.

The State Law does not require the transportation of school children unless they live more than two miles from the school to which they are assigned, however, the policy of the School Committee of Chelmsford for many years has been to transport any pupils living more than one mile from their school. Because of this policy in effect for so many years, it is our belief that many parents would object seriously to the requirement that their children should walk for greater distances than one mile, even though the Committee is not required by State Law to furnish transportation unless they live more than two miles from their school. On the other hand, no doubt

many citizens would object to the increase of our means for transportation by the purchase of an additional bus. Your superintendent is inclined to believe the wisest solution to the problem, probably would be the erection of at least an eight room building on one of the cross-roads, approximately half way between the Groton and Dunstable Roads. We are now transporting from those sections to the Princeton and Quessey Schools, 157 pupils, enough already to require five class rooms. Such a building, modern in every respect, with adequate playgrounds and properly equipped to fulfill the needs as your Committee sees them, would relieve greatly our present transportation problem and provide for future growth in the school population of those sections for several years to come. Moreover this building would relieve entirely the present congested conditions in both the Princeton Street and the Highland Avenue Schools, and the necessity for the provision of more class rooms at North Chelmsford is imperative even at the present time. Furthermore it will not be but a few years before we shall have to make additions to both the Westlands and East Chelmsford Schools to provide more class rooms, or assign grades seven and eight of those schools, to the new Centre Grade School, so rapid is the growth of the school population in the above sections.

This problem of future additions to our present school plant raises at once, the question of the desirability of the organization of Junior High Schools in Chelmsford. In almost every community in Massachusetts where new buildings are being constructed, the 6-3-3 plan, i. e., 6 years of Elementary School, 3 years of Junior High School and 3 years of Senior High School, is being followed. The following data with respect to the above question is particularly pertinent to the average citizen who is called upon to support expenditures for new buildings:

1. 24 of the 39 cities of Massachusetts maintain Junior High Schools. Of the 95,000 pupils of grades 7, 8 and 9, in these cities, 65,000 are enrolled in Junior High Schools.

2. Of the 79 towns with a population of over 5,000 in Massachusetts, 39 have Junior High Schools. Of the total of 30,752 pupils in grades 7, 8 and 9 in these towns, 15,000 are enrolled in Junior High Schools.

3. Of the total of 118 towns and cities of over 5,000 in Massachusetts, 643 have Junior High Schools. Of a total of 125,752 pupils in grades 7, 8 and 9 in these towns and cities, 80,000 are enrolled in Junior High Schools.

4. During the past five years, Massachusetts has expended over \$40,000,000 for school buildings. Over half, in fact, 51% of this expenditure has been for buildings erected to provide for the Junior High School form of organization. The above is conclusive evidence that the people of the Commonwealth have definitely committed themselves to the Junior High School Idea.

5. The North Central Association comprising 19 states, showed the following situation in 1925 for 233 school systems reporting: 55% were organized on the 6-3-3 basis; 34% were organized on the 6-6 basis; 1.7% were organized on a 6-2-4 basis and only 9% retained the 8-4 plan of organization," which we still have in Chelmsford. This indicates that the re-organization of the school work in the upper grades is not only taking place rapidly in Massachusetts, but the movement is Country Wide. The above data was gleaned from a report by Frank W. Wright, State Director of Elementary and Secondary Education.

Another need deserving the careful consideration of all is a thoroughly trained Director of Physical Education who could do much through preventive and remedial work, toward the development of strong, healthful bodies of our boys and girls. Most of our teachers, our nurse and school physicians, are doing very valuable work to improve the posture, alertness and healthful demeanor of our pupils, though the Committee feel that much more might be accomplished if we had a trained physical director. You have this year provided in the Budget for the employment of such a director. Besides supervising the physical exercises taught the pupils by our teachers, he would have complete control of the development of all athletic teams for all the grade schools, as well as for the high school. We hope every citizen will support the Committee in this desire.

Another desire of the Committee is to see a High School Band developed and you have also provided in the Budget for the employment of a Band Instructor, beginning next September.

One educational aim to which we have as yet given almost no attention in Chelmsford is that of some pre-vocational guidance for our boys and girls. To our mind, of the seven educational aims recognized today, next to "Health" and the teaching of the "Fundamentals, i. e., the 3 R's: Reading, Riting and Rithmetic," the most important is Pre-vocational Guidance. In my report of December 1923 I discussed the topic of Vocations rather fully and would suggest that it merits your reading again.

The home and school programs should include a combination of play, handwork, co-operative activity, and academic work, the whole being varied enough to represent life's demands, and concrete enough to secure an effective response and successful accomplishment by each individual child. True, in a few of our schools we do have sewing, food, agricultural and poultry clubs, organized through the co-operation of the Middlesex County Extension Service and I believe these clubs are very helpful and of much educational value to the few pupils, sufficiently interested to join them. Besides, I believe we are offering a real efficient business or commercial course in our high school. However for all children before the school leaving age there should be provided a wide variety of try-out experiences in academic and aesthetic work, gardening, simple processess with tools and machines, elementary commercial experiences, and co-operative pupil activities. Such try-out experiences are for the purpose of teaching efficiency in everyday tasks, broadening the social and occupational outlook of the children, and discovering to them, their parents and teachers, their interests and abilities.

Drifting through school is a common evil in all educational systems. The life-career motive, whether temporary or permanent, should be encouraged as one of the motives in the choice of a curriculum and of certain elective subjects within a curriculum. To help adapt the schools to the needs of the pupils and the community, and to make sure that each child obtains the equality of opportunity that is due him, it is our duty to establish courses of study that will harmoniously combine the practical with the cultural subjects.

WORK OF THE YEAR

Standard Achievement tests were again given last May in the fundamental subjects and in almost all subjects and grades better scores were made than in the past four years. For the most part our teachers

are teaching much more effectively, diagnosing individual difficulties by testing, giving remedial drill at the proper time and to whom necessary, better than ever before.

You will remember that a year ago, in fact on December 10, 1925, our grades 5, 6 and 7 competed in a state-wide arithmetic contest in co-operation with the School of Education of Boston University. Below I am giving you a report on this contest, a study of which will show you that the scores for Chelmsford compare very closely to the median scores made by the 98 towns and cities that competed in the contest.

REPORT ON MASSACHUSETTS STATE WIDE ARITHMETIC CONTEST OF DEC. 10, 1925

Below are summary tables showing the comparative data for grades 5, 6, and 7 respectively for cities and towns completing the contest. The ten columns show, under each of the four fundamental processes and fractions, the average score (left hand column under process) and % of pupils of the grade making a perfect score (right hand column under process). For example, line 1 under Grade 5 shows that the fifth grade pupils of Chelmsford secured an average of 45.2 in addition (perfect score is 50, for each process), and that 40.6% of the pupils of the grade made a perfect score in addition; etc.

Also there is shown for each grade under each process on the two items on the table, 1, the high grade score; 2, the third quartile; 3, the median score; 4, the first quartile, and 5, the low score, for all cities making* returns. This makes easy comparison.

By median score for a grade in any subject, we mean, that there were just as many pupils who scored below the median score as there were other pupils who scored above the median. To afford comparison, another similar contest was held the last of this December. This contest included all New England but we have not received the results of this test.

TEACHERS

By resignation last spring and summer we lost only two teachers, both of whom had given faithful and efficient service. Miss Jane E. McEnaney was elected to take the place of Miss Norah C. Mahoney, resigned to be married, and Miss Estelle M. Buckley was elected to take the place of Miss Mary K. Daley, resigned to teach in Lowell, Miss Katie D. Greenleaf, who had given excellent service as principal of the East School for two years, was transferred at her own request to take charge of the two grade room at the Center School and Mr. Louis O. Forrest, was elected to the principalship of the East School. These new teachers are giving excellent satisfaction and our other teachers are serving faithfully and efficiently as previously.

ATTENDANCE

The percent of attendance, 94.85 for all schools last year is the best record made in the past 12 years and is an exceedingly important factor providing, to say the least, the opportunity for the best of results from the school work. Last year we had a total of only 750 tardy marks whereas the previous year the total was 1163, in fact, this was the best record with respect to tardiness for the past six years. Both these records are plainly indicative that a majority of our teachers, with the splendid co-operation of parents and the pupils themselves, are succeeding in training our children in those very important habits of regularity and punctuality in school attendance. Of course these splendid records may also be due somewhat to the better supervision of the health of our pupils, or on the average better weather conditions for the year.

HEALTH SUPERVISION

Study of the "Health Supervision—Summary" when compared with that of the previous year shows excellent results from the medical examination. The total number of defects found this fall was 1248, whereas the previous fall, 1203 cases were found. Altho the number of defects was greater this fall than a year ago this slight increase might easily explained as due to a large number of defects found in those children entering our schools for the first time or due possibly to a more thorough examination on the part of our school physicians. The number of cases treated since last examination or 922 was a little less than the number treated the previous year, when the number was 932. However, it is perfectly clear that parents are giving attention to the reports of the results of the examination and the excellent "follow-up" of the school nurse.

In closing, I wish to assure the Committee that I appreciate exceedingly your advice and loyal support, and the splendid co-operation of the parents, teachers, pupils and Parent-Teachers' Associations.

Respectfully submitted,

C. H. WALKER.

REPORT OF HIGH SCHOOL PRINCIPAL

Mr. Charles H. Walker,
 Supt. of Schools,
 Sir:

As a rule the school report is much the same from year to year and consists largely of congratulations upon the many good things to be found in the school and recommendations of the Principal for future progress. If therefore the report be brief, it is not because there are not the same good features in the school that have existed in the past, but because it seems needless to repeat the same thing year after year. A perusal of the reports of former years will show many of the excellent things that are still being done in Chelmsford High School with considerable success.

The graduates of our school are succeeding in higher institutions of learning including Normal Schools and Colleges. Some are achieving honors and acquitting themselves with credit to our schools. The College Preparatory Courses are measuring up pretty well to what is expected and demanded of them. The Business Course also is thorough and fairly broad. With scarcely an exception its graduates are enabled to receive good positions.

Our greatest needs lie along other lines, namely, the lines of Physical Training and Practical Arts. Some pupils will go to College, some will go into business, but all will need healthy bodies, and practically all at some time will be home builders and home makers.

The boys and girls who attend our schools today will be the men and women upon whom the nation will depend tomorrow. It is there-

fore our duty these children, to society, and to democracy to make our school as efficient as possible. We are endeavoring to keep this fact in mind day by day and every day in our work in Chelmsford High School.

The total enrollment is 224. The pupils enrolled by class as follows: 35 Seniors, 46 Juniors, 60 Sophomores, and 83 Freshmen. There are 22 more than last year. There are 4 more Seniors, 4 less Juniors, 9 more Sophomores, and 13 more Freshmen.

The teachers have been untiring in their interest and efforts and the best kind of co-operation and harmony has prevailed. With them I wish to thank the citizens, the parents, the School Board, and yourself for whatever assistance we may have received during the year.

Respectfully submitted,

LESTER F. ALDEN.

REPORT OF SUPERVISOR OF MUSIC

Mr. Charles H. Walker,
Superintendent of Schools,
Dear Sir:

The place that music holds in public school education is sometimes underestimated by both parents and teachers, and still everyone admits there is nothing more entertaining, and nothing the average child enjoys more than music. Everywhere we go we find music.

It is my aim to teach all the fundamental principles of the art and to give to the pupils the ability to read and to sing music of ordinary difficulty at sight.

A great deal of time has been spent on entertainments in the different schools for various public performances.

In the first grade much time is given to rote songs and rhythm. In the second term a start is made in reading from the staff, which is developed in the second grade with scales and exercises with easy progressions. This program is developed still further in the third grade with time motions, keys, finding do. In the fourth grade, continuing keys in sharps and flats, time motions and part singing. In the eighth the bass clef is introduced. In addition to the music methods some time is given to music appreciation, learning somewhat of the lives and works of the greatest musicians.

In the high school we have (2) two periods of chorus singing once a week, one period of the Glee Club practice every week. The enrollment of the Boys' Glee Club is 60. The orchestra also meets once a week.

In closing I wish to thank everyone for their hearty co-operation.

Respectfully submitted,

ELSIE S. BURNE.

REPORT OF SUPERVISOR OF ART

Mr. Charles H. Walker,
Superintendent of Schools,
Chelmsford, Mass.

Dear Sir:

Among the many things accomplished by the teaching and knowledge of Art, are two which I have chosen to emphasize this past year. First, the desire to see and discriminate the beautiful and useful; second, the ability to apply those things to the individual's particular need.

We are able from the nature work done to obtain colors and combinations of colors which may be used in countless ways, in homes and dress. In the upper grades we are making a study of home planning, color, arrangement and type of furniture and cost.

There is a certain time during the school year for the study of Fine Arts or Artists and their work. This last year I limited the work to American artists. Each child had a copy of a picture painted by one and knew about his life and pictures. We are planning a short play in connection with Picture Study.

The art work has correlated with the Health Work by making posters and booklets.

I wish to thank all for their kind co-operation.

Sincerely,

RUTH HAZELWOOD.

REPORT OF SCHOOL PHYSICIANS

Chelmsford, Mass., January 5, 1927.

Mr. Charles H. Walker,
Superintendent of Schools
Town of Chelmsford.

Sir:

The examination of all of the school children was conducted as in previous years.

Many parents are co-operating with this work and many more might with great benefit to the children.

The presence of more parents at the annual examination would be mutually beneficial.

Miss Sheehan's detailed report gives the scope of this work and is very interesting.

REPORT OF ATTENDANCE OFFICER

Chelmsford, Mass., January 15, 1927.

Mr. C. H. Walker,
Superintendent of Schools,
Chelmsford, Mass.

Dear Sir:

During the year eighteen cases of truancy were reported to me by the teachers of the East Chelmsford and Center Schools. All these have been returned to school with the exception of two, one leaving to go to work, and the other going to reside in another town. The majority of these cases were due to lack of knowledge by the parent of the child's absence and were easily remedied, while in two or three cases lack of sufficient clothing was the reason. In all these matters there has been a fine spirit of co-operation between the teachers and parents, a part which is very essential to the work of the attendance officer.

Respectfully yours,

DONALD F. ADAMS.
