Under the item *Public Buildings Insurance on a motion made by Harold C. Petterson that the Selectmen be instructed to place all fire insurance policies now written by stock companies, expiring in the year 1939 in mutual companies, This motion was lost. Mr. Grant explained that a re-rating is about to take place on all public buildings in Chelmsford and that if the motion was passed it may affect a rating to the benefit of the Town.

Under the item of Town Reports, on a motion made by Harold C Petterson, it was voted that the Selectmen be instructed to investigate the advisability of publishing the Town report for the year 1939 in planograph form, and further be instructed to advertise for bids in distributing said reports.

Mr. Petterson explained that a substantial saving probably could be made if this form of a report was adopted and he also explained that a saving probably could be made by advertising for bids on the distribution of Town Reports as one of the distributors who distributed the 1938 Reports had told him that he would do the entire Town for one-half of what it cost to do the entire town in 1939.

Under Article Three:

On a motion made by Stewart MacKay it was voted to authorize the Selectmen to act as its agent in any suit or suits which may arise during the current year, with authority to settle and adjust claims or demands for or again st the Town; and to employ counsel whenever in their judgment it is necessary.

REPORT OF ACTIVITIES OF CEMETERIES
IN CHELMSFORD, MASSACHUSETTS
19 39

To the Board of Selectmen:

Chelmsford, Massachusetts.

Gentlemen:

The Cemetery Commissioners wish to submit the following report for the year ending December 31, 1939.

All the cemeteries have been fairly well cleaned up from Hurrican damage and most of the repairing completed. Last season's dry weather was quite harmful to the cemeteries.

At Fairview Cemetery, the front Main Section has been graded and loamed. It is intended that this section be sold in Perpetual Care lots. We hope to do the other front section this coming year.

The following is a list of burials for this past year: Forefathers Cemetery; four burials; Pine Ridge Cemetery, eleven burials; Hart Pond Cemetery, four burials; Riverside Cemetery, six burials; Fairview Cemetery, seven burials West Cemetery, twelve burials.

The Cemetery Commissioners express their appreciation for the cooperation of the Cemetery Superintendents and urge lot owners to visit the cemeteries.

Respectfully submitted,

Bayard C. Dean

REPORT OF PARK COMMISSIONERS

To the Board of Selectmen:

Chelmsford, Massachusetts.

Gentlemen:

The Park Commissioners wish to submit their report as follows:

The care and upkeep of the Public Parks of the Town has gone on the past year much as usual. At the last Annual Town Meeting it was voted to authorize the Park Commissioners to appoint any or all of the members to work in the parks and receive compensation for same, this being required by law. The care of the parks this past summer has been divided up as follows. The Centre by Walter Merrill, the North by Michael Welch and the West, South and Westlands by Claude A. Harvey. Much damage was done to the trees on the parks by the hurricane of September, 1938, requiring some trees to be completely removed which was taken care of by a W.P.A. project. We feel that for economy's sake, the Town should purchase a new power mower for the Center to replace the one purchased by the Town ten years ago which is now badly worn.

We wish to thank the Town's people for their help and cooperation with us in carrying on the work which was placed in our hands by vote of the Town, and hope that the work has been carried on according to their wishes.

Respectfully Submitted,

Walter H. Merrill, Chairman

Claude A. Harvey, Sec.

Park Commissioners
Town of Chelmsford

To the Honorable Board of Selectman
Town of Chelmsford

Honorable Sirs:

As W.P.A. Sponsor's Agent for the Town of Chelmsford, I wish to submit the following report of the W.P.A. activities in the Town of Chelmsford for the year 1939.

Beginning with January 1, 1939 the greatest number of the men were employed on the fire hazard project; which consisted of opening up fire lanes and roads that were blocked up by trees felled by the hurricane, that occurred on Sept. 21, 1938. Cutting up trees and burning slash in the residential areas to eliminate fire hazards to buildings. Cutting and removing trees that had fallen on dwellings. Cutting up fallen trees and burning brush on each side of roads. The total number of miles of roads cleared of wood and slash burned was 58, and the approximate number of acres of wood lots cleared and burned was 750.

Several cords of wood were taken to the Town Infirmary where it was cut up into stove lengths where it was used by the Welfare Department.

The greatest number of men that were carried on the W.P.A. at any one time during the year 1939 was 171 and with the exception of about 40 men, the remaining 131 were on the Fire Hazard Project from January 1, 1939 to May 23, 1939, the date that the project was closed. This project entailed a great amount of work as it necessitated mailing out easements; granting permission to enter their property to do the required work.

Over 200 easements were typed and mailed to people residing in all parts of the country for their signatures. It also necessitated looking up the property and property lines to prevent trespassing on the adjoining abutters property.

The various fire departments of the Town cooperated in every way needed, which helped to a great extent in keeping hazards under control.

After the Fire Hazard Project was closed in the month of May, the men were cut up into groups, and were absorbed on the various projects through out the Town.

During the late fall of 1938 and up to the middle of June we had a group of 14 men on the Moth Project; which consisted of creosoting gypsy moth nests, cutting and burning brown tail moth nests, cutting and destroying caterpillar nests, and cutting and burning their unsightly webs along the highways.

We also had 6 men employed on the Survey Project which is to obtain and plat official land ownership records for the Assessor's Dept., completing new records of all property in Precincts 1 and 6 in the Town of Chelmsford by abstracting all deeds and certificates and copying all plans and other essential records from North Middlesex Registry of Deeds in Lowell and Probate Record Hall in Cambridge.

We also had another group of 20 men working on our Road Project.

From January 1st to June 1st we had 7 women on our Sewing Project. In June it was reduced to 6.

On August 30 all of our women were affected by the eighteen month ruling, and incidentally laid off for what was supposed to be for 30 days, but the project was not reopened until October 26, a period of about 2 months.

During the period of 10 months which they worked they made 4823 garments, an average of 742 garments per woman for a period of 10 months, a rather enviable record.

During the summer a group of men were employed on the Highland Avenue School Playground Project. That project consisted of cutting down the grade to a depth of approximately 4 ft. and the earth removed was used for filling the various large holes and levelling the field up to property lines on all sides.

A septic tank was installed, walks and steps were also built. A chain link fence was erected and some of the banks were sloped, loamed and seeded.

A considerable amount of riprapping had to be done to hold the banks from sliding where the greatest amount of filling had to be done. A masonry wall with cement cap was also constructed.

The field is laid out to take care of football and baseball games, and also tennis, with backstops erected for the same.

The entire field has been leveled, a baseball diamond, regulation size laid out, and the entire area loamed, fertilized and seeded. The playground is practically finished with the exception of the tennis courts which will be finished in the early spring, and when the project is completed it will afford one of the best playgrounds in the Town.

We also have a project to complete the Varney Playground. It consists of grading, loaming and seeding various areas on the grounds, enlarging the beach area up to the property line, hauling and spreading 600 cu. yds. of sand to enlarge the beach area from the water's edge up to a masonry wall built in back of the present field house to hold the loamed and seeded area from washing down on the beach.

A gravel path is to be built from the beach up to the present tennis court, and park benches are also to be built.

The present existing banks along the three sides of the ball field are to be riprapped and sodded to prevent washing down on the field.

The first base, third base, and center field areas of the field are to be reloamed, fertilized, rolled and seeded.

A seven foot chain link fence mounted on a pipe rail frame with fittings that will be set in cement is to be erected at various places on the playground to prevent automobiles from driving onto and parking on the grounds.

Concrete walks and steps are to be built leading from the entrance gate up to and around the field house. Three new brick steps are to be added to the present one in front of the field house to meet the present grade. Ornamental trees are to be set out in front of the building.

The entrance gate above mentioned is to be constructed of cut granite and on the top of the arch, and pillars on each side of the arch, bronze letters and tablets are to be inserted, memorializing Doctor Edwards who left a fund available to playground purposes, and also Doctor Varney the original donor of the playground.

We have a project to combine the McFarlin School and High School lots into one large athletic field. That project was to be started last spring, but due to the building activities at the High School which interfered, it was impossible to do so.

That project is to enlarge the present baseball and football field. It may be that the field will have to be re-located due to the fact that the new addition on the High School extends out so far as to possibly interfere.

Two new tennis courts are to be built with suitable back stops for the same and general grading and seeding will have to be done.

On the McFarlin lot, the grade is to be raised along Wilson St. to afford proper drainage. A volley ball court with backstops is to be constructed. A regulation size soft ball diamond and field laid out and constructed with backstop. A chain link fence along Wilson St. with a gate and the fence will be continued along Chelmsford St. up to the property line. This project will not be started until the spring of 1940.

We have a blanket project covering several roads in the Town the following have already been completed; The Dalton Rd. from Westford St. to Chelmsford St. was widened, straightened, graveled, rolled and oiled for a distance of 9137 ft. Approximately 3000 feet of drain pipe with several catch basins to afford proper drainage was installed. On Stedman St. 950 ft. of drainage was laid. Fairview St. in No Chelmsford was widened, graveled, rolled and oiled the entire length, and 300 ft. of concrete pipe and catch basins laid for drainage.

Grant St., a newly accepted street in No. Chelmsford was constructed, graveled, rolled and oiled the entire length.

Several streets have been widened, drainage laid preparatory to graveling and the graveling on those streets will start after January 1, 1940, and later in the summer will be shaped, rolled and oiled; making them completed streets.

On August 22 the project to build a 500,000 gal. re-enforced concrete water reservoir on Robin Hill was started. This reservoir is connected with the old reservoir with a ten inch main and gate valve so that it will be possible to use either or both reservoirs together.

Approximately one-half mile of road had to be opened up from High St. to the site of the project. This was done by using a gas shovel. All of the concrete work has been finished on the new reservoir.

Considerable grading will have to be done around the tank to meet the specification submitted by the engineers. It is proposed to build a retaining wall around the new reservoir and fill in with earth which will be sloped up from the wall to within 8 ft. of the top. The slope to be loamed and seeded to prevent the filling from washing down.

There is a small amount of leakage in the old reservoir, and it is proposed to waterproof the old one to prevent any further leakage. The outside and inside forms have been all taken down from the new one and the work of taking down all the supports and braces supporting the dome is about to start. All the proposed work on and about the two reservoirs will not be completed before spring.

Since the spring of 1939 we have had at different intervals young people between the ages of 18 and 25 working on our National Youth Administration Project. We have at present 2 young men working at the Town Infirmary. One young lady has recently been assigned to work, and is employed as clerk and typist for the Welfare Dept.

There are a number of very worth while projects on the docket for the year 1940 and if put into operation will prove to be very beneficial to the Town and its citizens.

I wish at this time to thank the Board of Selectmen, the Board of Public welfare, the Highway Dept. and all others who contributed so generously to help make the operation of our projects a success.

Respectfully submitted,
Frank J. Lupien
W.P.A. Sponsor's Agent.

REPORT OF FOREST WARDEN

Board of Selectmen
Chelmsford, Massachusetts

Gentlemen:

The annual report of the Forest Warden is respectfully submitted herewith.

In addition to the District Chiefs of the Fire Department, the following were appointed Deputy Forest Wardens:

Herbert M. Sturtevant
Walter H. Merrill
Fred W. Merrill
Fred L. Fletcher
Spencer W. Chamberlin
George A. Parkhurst
Lester W. Ball (Observer)
Robert Henderson

During the past year we were called to extinguish two hundred (200) forest and grass fires.

About two hundred and fifty (250) acres of land were burned over; about half of this being forest lands that were swept by the hurricane of last year; the remainder being scrub and grass land of no merchantable value.

Approximately two thousand permits were granted by this department during 1939.

Many fires were of incendiary origin while others were caused by abandoned camp fires and carelessly discarded cigarettes and other smoking material.

The problem of enforcing the permit law is increasing every year and requires a great deal of work on the part of this department. It is the desire of this department to have every citizen cooperate in enforcing the permit law.

During January and February I personally assisted the United States Forest Service in planning the removal of the many fire hazard areas left by the hurricane of September 21, 1938. Although all areas were not cleaned of brush and timber much was accomplished through the efforts of the Forest Service and W.P.A.

At the last annual meeting we received an appropriation for a portable pump, booster tank and hose to be used in extinguishing forest fires. This new equipment has proven its value and without it we would have had many more serious fires.

During the entire year we have had an extreme fire hazard due to lack of rain. Our rainfall being one foot below average for the year.

We have had prompt response to all calls by our men and it was only their untiring efforts that prevented many fires from reaching major proportions. Our equipment which has been taxed to the utmost is being carefully examined and repairs made to assure its continued service for many years.

The Federal-Knight truck which has been in service fourteen years should be replaced, as it has reached the stage where it is impossible to keep it in satisfactory working condition.

In conclusion, I wish to express my appreciation to State District Fire Warden Frederick R. Stone and State Observer Lester W. Ball and to the Police Department, Fire Department and to my Deputies for the fine cooperation they have extended me during the past year.

Respectfully submitted,

Gilbert H. Perham
Forest Warden

BOARD OF HEALTH REPORT

To the Citizens of the Town of Chelmsford:

Your Board of Health again takes pleasure in presenting an account of its accomplishments and the performance of its duties for the year 1939.

We organized for the year with Edmund J. Welch as Chairman, Raymond H. Greenwood as Secretary and George H. McNulty as third member. Mr. McNulty, the veteran member of the Board for many years, has not been in the best of health for the past few months, and while unable to attend many of our meetings, has nevertheless shown his usual keen interest in the functioning of the department and it is the sincere wish of the Chairman and the Secretary that he regain his health as rapidly as possible.

We had the usual routine business of the department to take care of during the year, together with several important issues that commanded our attention, and we feel that we have done our very best in the handling and disposition of matters as they were presented.

One of the more serious situations that has been brought to our attention is the so-called Beaver Brook nuisance in the Centre part of the Town, which necessitated bringing the State Department of Public Health and the Commissioners of the County of Middlesex to our Town for advice and guidance in this matter, and after several weeks of careful study, we are pleased to report that this condition will be remedied to the satisfaction of any and everyone concerned.

The Department toward the close of the past year was requested to investigate certain conditons at our Town Infirmary, such request having been made by a group of civic-minded citizens. Your chairman and Secretary acted upon this request and made several visits to the Infirmary, conversing with the entire number of inmates, inspecting their living quarters and discussing their general welfare. We felt it necessary and deemed it our duty to appear before the Board of Public Welfare, under whose jurisdiction these people have been placed and requested that Board to conduct a sweeping investigation of that institution, to make changes and to correct such conditions as pertained to the general health and welfare of its inhabitants. As a result the Board issued a statement to the effect that the food served to the inmates would be improved upon and the sanitary conditions in the inmates quarters would be corrected.

In the matter of appointments that we are obliged to make during the year there was only one instance where a change was effected, that change being the Agent of our Board. Isabelle H. McDonough tendered her resignation as agent in the early part of the month of March, and before making another appointment at that time, your Board went into consultation with the School Committee and it was decided that the duties of the School Nurse and the Agent of the Health Department be combined and the position filled by one person instead of two, such appointment to be made under the jurisdiction of the Board of Health. In order to effect this change it was necessary to have the School Nurses' salary stricken from the School Department's budget, and an increase in the Health Department's Agent's salary. We received a large number of applications for this position and after interviewing each applicant personally and carefully considering their qualifications, Miss Christina N. Simpson, R.N. was named for the position. We feel that we have made an excellent choice and Miss Simpson is performing her duties splendidly, and is a credit to her profession and the Town. All other appointees of the Board are doing their usual fine work. We had a slight epidemic of measles during the year amongst the younger class of school children, but we are happy to note that no serious effects resulted from any case. It might be well at this time to inform the people that under new

rules and regulations of the State Department of Public Health; the carding of homes where there is a case of measles, is not necessary.

Financially we have fared well for the past year. Our budget, in the amount of \$6,160.00 was approved at the Annual Meeting. We were forced to ask for an additional sum of \$50.00 to carry us through the year in our maintenance account, and of this total amount of our budget \$843.43 was not expended. We have been extremely fortunate in the number of cases that necessitated hospitalization, labeled under the account of "Board of Health--Aid", the number not exceeding at any time during the year over three. We have turned back to the Treasury in this account \$464.48. The original appropriation of \$2000.00 in 1938 was reduced to \$1750.00 in our budget for 1939.

We had one case of dog bite during the year which required spending \$96.00 of \$400.00, the original amount appropriated for vaccine treatment. We have been re-imbursed by the County of Middlesex for this expended amount.

Also in the matter of re-imburements for the year 1939 we have received the following amounts of money.

State T.B. subsidy for hospitalization of T.B. patients....	\$927.15
Plumbing Fees.....	436.50
Milk Licenses.....	81.00
Bottling licenses.....	20.00
Wood alcohol licenses.....	5.00

During the year on a special appropriation of money, the North Chelmsford dump was put into proper condition. Under our supervision a suitable road was built to the dump, the entire area cleaned up, signs posted and a caretaker stationed at the premises to keep the dump in good order. This Department understands and sympathizes with your problem of the disposition of rubbish. The location of these dumps being a great distance from a good many points, and of the inconvenience of many in the matter of transportation. We are ever mindful of this condition and it is our hope through some manner or means, we may in the near future, be able to offer some feasible plan for the collection of rubbish.

We again extend a cordial invitation to any citizen of the Town to sit in at our meetings, or to offer any suggestions that might enable us to better work as members of the Board of Health.

We thank sincerely the various officials of the other departments for their co-operation extended us during the year.

Respectfully submitted,

Edmund J. Welch, Chairman
Raymond H. Greenwood, Secretary
George H. McNulty

REPORT OF THE BOARD OF HEALTH AGENT AND SCHOOL NURSE

Mr. Edmund Welch
 Chairman of Board of Health
 Chelmsford, Massachusetts

Dear Sir:

Following are the contagious diseases reported from May 1, 1939 - December 31, 1939:

Chicken Pox	4
Measles	83
Scarlet Fever	6
Mumps	2
Pulmonary Tuberculosis	2
Gonorrhoea	1
Pneumonia-Lobar	1
Dog Bite	3

Let me urge parents at this time to have the doctor for their children when illnesses occur in the family, especially childhood diseases, as I feel it will benefit them in future years.

In May, 1939, a diphtheria immunization clinic was held at the Centre Town Hall. Transportation was provided from the various sections of the town and seventy-three were immunized.

Diphtheria as a cause of death has dropped below whooping cough, measles and scarlet fever as a result of active immunization. However, one must clearly appreciate the fact that diphtheria has not been eliminated. Cases have been reduced by making persons immune but the "diphtheria bacillus" has not disappeared. Thus in the future I hope parents will strive to obtain for their children the so-called diphtheria insurance - immunization.

During July two Well Child Conferences were held, one taking place at the Centre Town Hall, the other being held the following week at the North Chelmsford Town Hall. Dr. Susan Coffin was the examining physician; Dr. Catherine Ronan, Dentist; Miss Catherine Fitzgerald, Nutritionist; Mrs. Helen Hachett, Public Health Nursing Supervisor.

The work of the above unit was carried out by means of Social Security Funds. The conferences were held with the idea of noting defects and recommending that early treatment be carried out by the family physician.

The total number of children examined	111
Number of children having major defects	68
Number of children having no defects	21

In a home where a case of measles is prevalent said home will not be placarded due to the fact that Isolation and Quarantine Requirements of the Massachusetts Department of Public Health do not require such a measure.

This fall the Board of Health insisted that milk being distributed to the public schools be pasteurized. I feel that this was a definite move toward better health standards. I am in hopes that in times to come, the milk distributed throughout the town will be pasteurized.

I have met with the Board of Health the second Tuesday of each month and discussed with them in detail plans for future health work. I wish to thank the Board of Health members for their advice.

My report of school activities is as follows:

Number of visits to classrooms	512
Personal Hygiene and Health Talks	136
Sanitary Inspection in Schools	76
Consultation with Parents	325
Consultation with Pupils	385
Pupils sent or taken to Physician	275
First Aid Treatments	600

Transported to Hospitals	25
Absentees Visited at Home	450
Excluded from school for suspected illnesses	75
Excluded from school for Ringworm and Impetigo	25
Excluded from school for Pediculosis	10
Pupils taken home because of illness	75

All pupils were examined during the months of September and October by the school physicians, Dr. Arthur G. Scoboria and Dr. George E. Carriel. Statements of defects found were sent home to parents or guardians. All boys wishing to play in the football teams were given examinations. All pupils have been weighed and measurements taken.

In November a Public School Clinic was held at the McFarlin School for the purpose of following up Tubercular contacts or suspicious cases relative to Tuberculosis.

Number of children recommended for further follow-up at 1938 - 1939 School Clinic	16
Number of children x-rayed	13
Number of children not examined - moved	1
Number of children out of school - married	
Did not come in for x-ray	1
Number of children not examined - Father states child discharged to care of private physician	1

Dr. Charles Farrington, the school dentist, has carried on extensive dental work at the Westlands, East Chelmsford, Princeton Street, and McFarlin Schools. Many parents have taken advantage of this opportunity to have their children's teeth put in excellent condition, and I hope they will continue to do so in the future.

I wish to thank the School Committee and the School Physicians for their cooperation. I have had many consultations with Mr. Wright during the year and have received helpful suggestions. I also have discussed problems in the High School with Mr. Burns and feel much has been accomplished by it. I want to express my appreciation to all the teachers and parents with whom I have come in contact during the year.

I am sure I am sage in saying that the towns-people and myself are very grateful to the Gun and Rod Club, Lion's Club, Girl Scouts, American Legion Post #12, Lowell Lodge of Elks, Carroll Motors, Inc., All Saints Church, Community Church Service, Chelmsford Garden Club and Parent-Teachers Organizations for their splendid work in caring for their less fortunate fellow citizens and making their holiday season more joyful.

Respectfully submitted,

Christina N. Simpson, R.N.
School Nurse and
Agent of the Board of Health

ANNUAL REPORT
of
MILK INSPECTION DIVISION

To the Honorable Board of Health
Chelmsford, Mass.

Gentlemen:

I have the honor to present the report of the Milk Inspection Division for the year ending December 31, 1939.

556 samples of milk seized from dealers, were examined for Total Solids and Fats, 423 for bacterial content, 477 for Sediment, 102 for Temperature, 397 by the Phosphotase Test. The yearly average was 12.67% Total Solids, 3.90% Fat, 6,500 median bacterial count per cubic centimeter. 52 samples of cream averaged 38.47% Fat, 8,000 colonies of bacteria per cubic centimeter.

Approximately 2682 quarts of milk, 92 quarts of cream, 8 quarts of skimmed milk, 33 quarts of buttermilk, 30 quarts of Milk Beverage were consumed daily. 91.98% of the milk was sold as Pasteurized, 8.02% as Raw, 23.78% Wholesale-Pasteurized, 0.11% Wholesale-Raw, 68.23% Retail-Pasteurized, 7.90% Retail-Raw, 1.82% Grade "A" Milk, 0.63% Grade "A" Raw, 0.34% Certified-Raw.

599 Dairy Farms were listed as supplying the Town with milk. 372 of these were inspected and scored. As a result of the inspections, the milk from three dairy farms was rejected for a period of time. After improvements were made the dairies were approved. 394 samples of milk from Producers were examined, prior to pasteurization.

45 Stores and 31 Dealers were licensed to sell milk, 6 Stores were Registered to sell Oleomargarine, 4 Milk Plants were licensed to Pasteurize milk.

Eighty-one dollars, received from license fee, were paid to the Town Treasurer.

Respectfully submitted

Melvin F. Master, B. S.
Inspector of Milk.

REPORT OF INSPECTOR OF ANIMALS

Board of Selectmen

Gentlemen:

I herewith submit my twenty-fifth annual report of work done by this department the year of 1939, under the direction of the Division of Live Stock Disease Control, State Dept. of Agriculture. The annual inspection of cattle, sheep and swine is completed and a detailed report has been sent to the above mentioned department.

I have reported seven stables where tuberculin testing was not conducted under State supervision because the owners have but recently acquired cattle. There are 199 stables in which 645 dairy cows are kept. 256 young cattle and 24 bulls, making a total of 925 head which is 15 less than last year. There is a decrease of 91 dairy cows and an increase of 74 young cattle and 2 bulls.

There are 794 swine one half of which belong to two owners, also 49 goats and 9 sheep. The tuberculin test is applied annually to all cattle and only 2 cows (in one stable) reacted this year, they were slaughtered and the stable thoroughly cleaned and disinfected. Only one animal came into Town for dairy purposes, from outside the State, under State permit during the year. One bull from outside the State was quarantined as the necessary test charts were missing. He was later released when tests proved satisfactory.

Thirty dog bite cases were investigated and 23 dogs were quarantined and later released as no Rabies developed. One dog's head was taken to Boston for examination. The preliminary test showed symptoms suggestive of Rabies, but inoculation of small animals did not substantiate this finding. Three persons who had handled this dog took the Pasteur Treatment.

For 50 cents a head the State will vaccinate all calves between four and eight months of age, for Bangs Abortion disease, if formal application is made. No compensation will now be allowed for re-actors from the Federal Government as they do not pay unless the State provides money for the same purposes. All cattle shipped into the State from other states for dairy purposes must be accompanied by a certificate showing a negative test for Bangs disease within thirty days prior to shipment and also a health chart for Tuberculosis.

The following table shows the distribution of animals by precincts as compared with the year 1932.

Precinct	Cows		Young Cattle		Bulls		Swine		Sheep		Goats	
	'32	'39	'32	'39	'32	'39	'32	'39	'32	'39	'32	'39

REPORT OF THE PLANNING BOARD

To the Citizens of the Town of Chelmsford:

We submit herewith the 1939 report of the Planning Board.

The Board has held monthly meetings at the Town Hall. It has studied the actual operation of zoning in the Town and through its advisory capacity the selectmen have been informed of conclusions drawn from these studies.

Acting under Chapter 41, Section 81, F-J of the State Law, the Planning Board has drawn up a set of rules and regulations for the subdivision of land, and copies may be obtained from the secretary.

Your Board considers the adoption of these rules most important, for faulty and careless subdivision of land in this and in other communities has caused irreparable harm.

Respectfully submitted,

Lester W. Ball,
Secretary.

REPORT OF THE BOARD OF TRUSTEES
OF THE ADAMS LIBRARY

The Trustees of the Adams Library organized for 1939 with the following officers:

Chairman.....Mr. Edward B. Russell
Secretary.....Miss Miriam E. Warren
Treasurer.....Rev. Charles W. Henry

They reappointed Mrs. Ida A. Jefts Librarian, Mrs. G. W. Peterson assistant librarian and Miss Edith Alcorn, assistant in the children's room. They appointed Mr. LaForest Fields janitor following the death of Mr. Samuel Felch.

The book purchasing committee has paid particular attention to the need for new fiction, at the same time continuing to add important books for school use, the best non-fiction publications and interesting new children's books.

A sum has been appropriated for the purchase of a book case for the better display of these new books as they are made ready for circulation.

The Trustees wish the following resolution, prepared by Mr. Park for the library records, to be included in their report for the year.

"At the beginning of the present year the Board of Trustees of the Adams Library were faced with the retirement of its oldest member, Mr. Albert H. Davis. For forty years Mr. Davis has served on the Board, a considerable portion of which time, he ably served as chairman, giving freely of his time and energy to the work. No effort was too great for any project that related to the Library. He was active in shaping the policies of the Board in the early days and his influence and good judgement will be felt for many years.

It is with deep regret that we sever this connection, and the members of the Board wish to extend not only their appreciation, but that of the whole Town, for his long and faithful service."

REPORT OF THE HIGH SCHOOL BUILDING COMMITTEE

To the Citizens of the Town of Chelmsford:

The High School Building Committee reports as follows: That at the Special Town Meeting held on September 27, 1939 the following votes were passed:

"That for the purpose of financing the construction and equipment of an addition to the Chelmsford High School Building and to enable the Town to secure the benefits of funds granted by the Federal Government under the Public Works Administration Appropriation Act of 1938, there be raised and appropriated the sum of One Hundred Five Thousand Four Hundred Fifty-four Dollars (\$105,454), and the treasurer, with the approval of the selectmen, be and hereby is authorized to borrow the sum of Fifty-eight Thousand Dollars (\$58,000)

and to issue bonds or notes of the Town therefor, under authority of and in accordance with the provisions of Chapter 50 of the Acts of 1938, said bonds or notes to be payable in not more than 15 years at such term and maximum rate of interest as may be fixed by the Emergency Finance Board.

All moneys received by way of grant from the Federal Government on account of this project shall be applied first to meet the cost of construction thereof and any balance shall be applied to the payment of the loan herein authorized.

The selectmen or the High School Building Committee are hereby authorized and directed to accept on behalf of the Town, for use in carrying out such project, a Federal grant of money, pursuant to the Public Works Administration Appropriation act of 1938; and the High School Building Committee is authorized to proceed with the construction of said project and to enter into all necessary and proper contracts and agreements in respect thereto, all subject to applicable Federal regulations; and the selectmen and the High School Building Committee are authorized to do all other acts and things necessary or convenient for obtaining said grant, making said loan, and constructing said project."

"That a Building Committee be appointed by the Moderator." As a result of the second vote, the Moderator appointed:

Fred F. Wiggin, George L. Waite, Viranus E. Osborne, John J. Dunigan, the School Committee, and the Board of Selectmen, to act as a building committee.

The committee appointed Ashton and Huntress of Lawrence, Massachusetts the architects, these architects having drawn the original plans in 1935.

On November 8, 1938, the Federal Emergency Administration of Public Works made an offer not to exceed \$56,250 and on November 17, 1938, the Building Committee met and accepted the offer.

Upon completion of the plans by the architects, which provided for the present addition with equipment for the sum of \$105,454 the offer made by the Federal Emergency Administration of Public Works was superseded by a new offer dated December 24, 1938 not to exceed \$47,454. The Town of Chelmsford raised its share of \$58,000 by the sale of a ten year bond issue. In compliance with P.W.A. rules, the Committee prepared plans and specifications and called for bids. Upon opening of the bids, it was found that Louis Marion & Son was the low bidder with a bid of \$81,100, the amount allocated by P.W.A. for this purpose being \$92,633.

On December 20, 1938 the Building Committee awarded the contract to Louis Marion and Son and this contract was approved by P.W.A. on December 21, 1938 and on December 22, 1938 work was started. On April 11, 1939 the equipment contracts amounting to \$6522.77 were awarded, the P.W.A. allocation for this purpose being \$4000. This extra amount for equipment was made available by the savings on the construction contract.

When work started, the Committee appointed Leo Boucher clerk of the works, a position required to be filled by P.W.A. and he supervised all work in association with the Federal Resident Engineer.

The plans originally called for two rooms on the auditorium level to be left unexcavated, but it was the opinion of the Committee that they could be excavated cheaper at this time than in the future. This necessitated a change in the plans requiring a steel and concrete floor and concrete foundation for the old building, which was thought highly advisable. This change, including many other changes, increased the cost of the building \$6,102.07.

At a Special Town meeting held on September 15, 1939, the Committee asked for and received the approval of the Town to use some unexpended money to install toilets for the general public to be used in connection with the auditorium and shower rooms and additional toilets for the students, all these to be placed in the two rooms gained by excavating the two rooms mentioned in the preceding paragraph. This increased the cost of the building about \$3,000.

In December of 1939, the work being nearly completed, the P.W.A. reallocated the fund as follows:

Preliminary expense and advertising....	\$ 110.00
Construction.....	97,064.00
Engineering, etc.....	8,130.00
Administration and legal expense.....	150.00
	<u>\$105,454.00</u>

High School opened late in September, some classes using the McFarlin School, but shortly after opening, the new addition was used in part, so that the building has been used this school year, and on January 5, 1940, the building was accepted as complete on condition that a few minor adjustments be made.

The Committee has made several changes and improvements on the original plans, but it has kept within the appropriation made by the Town, and will have a small surplus to return to the Town.

A public dedication was held Monday evening, January 22, and a large number of citizens attended.

This Committee has taken great pleasure in supervising the construction and equipment of this building and it is the hope of every member that the appreciation of the townspeople will be shown by the careful use of the building.

The Committee regrets that during its term of existence, it lost the services of one of its most active members, Mr. Viranus E. Osborne, who died on September 8, 1939, and takes this opportunity to express its appreciation for his help and cooperation during his term of office.

Respectfully submitted,

BOARD OF FIRE ENGINEERS REPORT

The Board of Selectmen,
Chelmsford, Mass.

We have the honor to submit the following report of the Board of Fire Engineers for the year ending December 31st 1939.

After being organized the Board reappointed the District Chiefs who have so faithfully served in that capacity for some time past, namely;

District No. 1 W. T. Johnson
2 Joseph D. Ryan
3 Walter Edwards
4 Henry G. Quinn
5 Charles House

These men have given their time and devotion to the problems of this department and have served the citizens of this Town well.

The quarters and equipment have been kept in first class condition. The morale of the men has been excellent and frequent drills have them well fitted to discharge their duties.

We have purchased gas masks of the best grade obtainable as a needed measure of safety and protection to the men.

Thirty-three firemen from various sections of the Town have taken the course in first aid sponsored by the Lowell Chapter of the American Red Cross. They are now trained to render valuable assistance in an emergency.

New Tires have been placed on all the apparatus where needed and as far as possible. The fire alarm system has been inspected and kept in good working order, while four new boxes have been added in needed locations. Fire cards have been printed and distributed throughout the Town.

We would be remiss in our duty if we did not at this time express our appreciation of the hearty cooperation of our Police Department, the Lowell Police, and State Troopers who have always responded to our needs.

The Department has answered 76 alarms and rendered assistance to surrounding towns and Lowell and also the Forest Warden.

Respectfully submitted,

Harry L. Shedd
John W. Dixon
John M. Kemp

MIDDLESEX COUNTY EXTENSION SERVICE REPORT

Chelmsford

The following is a report of the work of the Middlesex County Extension Service in the Town of Chelmsford during the year 1939:

Farmer have been furnished information on milk market problems. Advise has been sought from men closely connected with the Lowell Market, in connection with the Lowell-Lawrence Federal-State Marketing Agreement. Interest is growing in pasture improvement. Assistance has been given farmers through soil tests, recommendations on liming, fertilizing and seed mixtures. The herd of Theodore Emerson is in the Dairy Herd Improvement Association. Andrew Boumil, North Chelmsford, has ensiled grasses with molasses. Andrew M. Blackie grew the third highest acre yield of potatoes in Massachusetts, with a yield of five hundred bushles to the acre. About twenty-five poultry farmers in Chelmsford were visited during the year. The number of poultry farms in Chelmsford increases each year. Poultrymen were assisted in their farm problems such as disease, records and rearing practices. Circular material and notices of poultry meetings were sent to all those who keep much poultry. Spray service cards were sent to the fruit growers and assistance given in the marketing of the apple crop.

4-H Club Work was carried on in Chelmsford under the chairmanship of Mrs. Percy Beardsley, with the town committee made up of the following members: Mr. Percy Beardsley, Mr. John Rikkola and Mrs. William Kidder. Leaders during the year were Mrs. Kenneth Reid, Miss Julia Koulas, Miss Eva Kelly, Mrs. Eva Dobson, Miss Sophie Kisley, Mr. Walter Hannan, Miss Mabel Birtwell, Mr. Allan Woodhead, Mr. Sanford Philbrook, Mr. Charles Koulas, Mrs. Lillian LeClerc, Mr. Gilbert Riley and Miss Isabel Hamilton. One hundred sixty-four girls and boys were enrolled in the various clubs. Pearl Koulas entered the county dress contest. All clubs were represented at the sectional rally at Lowell in February.

The West Chelmsford clothing club, Sophie Kisley leader, won the identification contest at the rally. A fine exhibit was held at the Town Hall in May. Pearl Koulas won a free trip to Camp Middlesex. Joseph Gill was a delegate to State Camp. Edward Parlee and Ralph Pederson were awarded half their expenses to camp. Pearl Koulas was the third prize winner in the garden contest conducted by the Middlesex North Agricultural Society. Other awards were made to Joseph Gill, Donald Loiselle, George and Ralph Pederson, Robert T. Taylor, Robert Riley, Edward and Charles Parlee, Fred Nystrom and Fred Johnson. Mrs. Lillian LeClerc led a garden club with six members all having a garden on her land. Mr. Allen Woodhead led a poultry club and took the members to the Boston Poultry Show and the New Hampshire Egg and Baby Chick Show.

The total cost of all aid for 1939 within the Department of Public Welfare was as follows; figures given do not include Federal Grants which were expended as received:

	<u>1939</u>	<u>1938</u>	<u>Balance unex- pended 1939</u>
Welfare, including Other Cities and Towns.....	\$21,083.09	\$31,438.91	None
Old Age Assistance.....	33,503.74	27,206.34	\$1,496.26
Aid to Dependent Children.....	6,923.40	5,299.31	576.60
	<u>\$61,510.23</u>	<u>\$63,944.56</u>	<u>\$2,072.86</u>

The reimbursements which the Town Treasurer received during 1939 are as follows:

	<u>1939</u>	<u>1938</u>
Relief.....	\$ 9,840.97	\$15,632.75
Old Age Assistance.....	20,444.14	17,018.86
Aid to Dependent Children.....	2,274.42	2,720.32
	<u>\$32,559.53</u>	<u>\$35,371.93</u>
Outstanding Accounts.....	\$6,043.53	
Boston	\$ 1,375.16	
Billerica.....	93.34	
Cambridge.....	158.25	
Dracut.....	422.86	
Lowell.....	659.49	
Malden.....	8.33

Watertown.....	13.75	
Westford.....	392.99	
Winchester.....	<u>8.67</u>	
	<u>\$6,043.53</u>	

You will note that the expenditure for welfare in 1939 dropped more than \$10,000.00 over the preceding year and the expenditure of Old Age Assistance increased over \$6,000.00 and in Aid to Dependent Children it increased \$1,600. The decrease in welfare costs is explained by the fact that conditions in private employment are definitely better and unemployment compensation payments were paid to unemployed workers during 1939 and as a result they were kept off relief rolls. The increase of 13 cases on Old Age Assistance and 4 cases on Aid to Dependent Children during the past year is the reason for the greater cost in these two categories of relief as mentioned.

The reorganization of the State Department of Public Welfare which has been in progress during the past year becomes effective January 1, 1940. As a result of this new system the State intends to cut their administrative cost of welfare tremendously by doing away with all visits by State officers and their respective transportation costs. New forms, applications and detailed records and reports must be kept and sent in monthly by the local agency. This saving of administrative cost by the State Department is realized at the expense of the local Welfare Department because all the duties which were performed by the State Visitors have been passed on to the local Department along with additional new duties brought about by the reorganization. Inasmuch as State reimbursement is dependent on these policies and regulations being carried out, it is very important and essential that hospitals, doctors and merchants who are doing business with this Department of Public Welfare cooperate and do their part by rendering their accounts every month at the proper time. A letter has been sent to this effect to all concerned.

As in the past I have received splendid cooperation from the Board of Public Welfare, the members of the Bureau of Old Age Assistance, other Town officials, and many private citizens, and I wish to take this opportunity of thanking them.

Respectfully submitted,

Leonard S. MacElroy
Agent

REPORT OF THE SCHOOL COMMITTEE

To the citizens of the Town of Chelmsford:

We herewith submit the report of your school committee.

HIGH SCHOOL

The past year was marked particularly by the completion of the high school addition. The addition was ready for partial occupancy at the opening of school in September of 1939. Possession of the entire addition was officially turned over to this committee at exercises held in the new assembly hall on January 22, 1940.

With this excellent addition, the high school building now comprises 18 classrooms, an assembly hall seating 660 persons, and separate shower and dressing rooms for the boys and girls. The whole building affords an excellent school plant for the education of our high school students. If in the future more rooms are needed, they may be added to the addition above the rooms just built, or rooms may be added by building up from the ground level on one side, or on both sides of the assembly hall.

WESTLANDS

Previous reports of this committee have mentioned the crowded conditions at the Westlands school. The number of pupils increased so rapidly this year that it was necessary for the committee to provide additional classroom space. The Westlands Improvement Association, which owns the building used years ago as a one room school in this section of the town, very graciously offered the use of that building for a school room without charge to the town. The town will pay for heating the building and will provide janitor service when the building is in use by this department. The janitor's work will be done by Mr. Berg, the regular janitor at the Westlands School. On January 17, 1940, the building was opened as a first grade classroom in charge of Rita Foley, a newly elected teacher.

PLAYGROUNDS

Adequate school playgrounds are provided in every section of the town except West and South Chelmsford.

The latest playground to be constructed was obtained through the generosity of Frederick B. Edwards, a native of North Chelmsford, who died in California.

In accordance with the provisions of the will of Mr. Edwards, the California court turned over to Rev. T. J. Donovan, Rev. Herman Van Lunen and James P. Cassidy, as trustees, the sum of \$7166.97 with instructions to spend "not less than three thousand dollars in purchasing and equipping a playground near the Highland Avenue School in the village of North Chelmsford, and the balance of the said fund to be used in connection with the Varney Playground in the village of North Chelmsford either in the building of a field house or in the construction and improving of a bathing beach, in the discretion of the said trustees."

In accordance with these instructions, the trustees purchased approximately three acres of land in the rear of the Highland Avenue School for the sum of \$300. The Federal government approved a WPA project for the improvement of this land and work was started in May of 1939. In doing the work, 11,750 cubic yards of fill were moved and spread; 1200 tons of field stone were hauled and used in riprapping banks and the construction of a stone wall; 1000 yards of loam were hauled and spread; a baseball diamond was constructed; the whole field was finished, graded and seeded; a chain link fence 650 feet long was erected; 800 square yards of masonry was laid in concrete walks and drips around the school building; and 600 yards of cinders were used as a foundation for a tennis court.

The project is now completed with the exception of a permanent surface for the tennis court which is expected to be laid in the Spring of 1940. The whole

project affords an excellent playground for the children of that section of the town. The people of Chelmsford are deeply grateful for the generosity of Frederick B. Edwards which made this playground possible.

ANNEXED REPORTS

The reports of the superintendent of schools and the heads of the various departments are hereto appended. We respectfully request you to study these reports as they set forth in some detail the work that comes under the direction of this committee.

IN CONCLUSION

The operation of our public school system is the most important business that our town can be engaged in. It is the constant endeavor of your committee to carry out this work in a diligent and efficient manner. We are grateful for your constant cooperation in providing us with the means to carry on this work. You may justly feel proud of the facilities which this town affords for the education of its youth.

REPORT OF SUPERINTENDENT

To the School Committee:

My twelfth annual report is hereby submitted through you to the citizens of Chelmsford.

TEACHERS

The usual table gives names of teachers, their preparation, and date of beginning service. Few changes have occurred during the year. Miss H. Jean Rafuse, Principal of the Westlands School since it was opened in 1922 and teacher of grades VII and VIII, resigned on March 3d, a few days before her marriage. This position was filled by transferring Mr. Rikkola from the Quessy School. For the Quessy principalship Mr. Walter L. Hannan, Jr. of Medford was chosen. He is a graduate of Tufts College, B.S. in 1937 and Ed. M. in 1938, and had had practice teaching in the Medford schools.

At Highland Ave., Miss Gertrude P. Henderson, teacher of grades I and II, resigned in June, to be married. For this position Miss Veronica McTeague was transferred from South Chelmsford. Miss Ruth M. Rothwell, a graduate of Lowell Teachers College, with a B.S.E. degree, who had substitute experience in our schools for several years, was elected to the South Chelmsford position. Otherwise there were no changes in the elementary schools.

In the High School no change of teachers occurred, but two additional ones were engaged to meet state requirements. Last year's report explained the classifying of high schools as A or B. Chelmsford has had a class A rating since it was opened in 1917, but owing to the excessively high ratio of pupils to teachers in 1938 the State Supervisor wrote: "It is obvious that the rating of Chelmsford High School should be placed in jeopardy". He recommended engaging three additional teachers.

For one of the new positions Mr. George W. Boyce of Lexington was engaged. He is a graduate of Tufts in 1939, with a B.A. degree. Miss Beatrice T. Hoar of Lowell, a graduate of Boston University in 1934, B.A. degree, was engaged for the second position. She had had considerable substitute experience in Lowell.

Mr. George R. Knightly, who had been teacher in the High School and coach of the boys athletic teams for nine years, requested in June that he be relieved of all coaching duties. He had made a similar request the previous year. After careful consideration of all factors in the case it was decided to divide up the coaching work, assigning one major sport to each of three men and appointing a fourth faculty manager of athletics, each to receive an increase of \$100 in salary. Mr. Knightly is to continue as coach of baseball, Mr. MacLaughlan became coach of basketball, Mr. Watt faculty manager, and the new man, Mr. Boyce, was engaged to take the football. By this arrangement the school gives extra duties to four men who are teachers first of all, instead of a single man, primarily a coach, who does some teaching. The change was made on the urgent request of Mr. Knightly, and was not in any degree the result of any dissatisfaction with his work as a teacher or as a coach.

ENROLLMENT

A table at the end of the report shows the enrollment by grades and by buildings on October 1, 1939, and also the enrollment in the elementary schools and in the High School for the last ten years. The peak of enrollment was reached in 1934, when the elementary schools had 1242 and the High School had 408, a total of 1650. Now the elementary have 1140, and the High School has increased to 502, a total of 1642. The High School will undoubtedly be somewhat larger next year, as the class to graduate numbers 86 and the 8th grade has 161. Unless the number of families in town increases largely, however, it is probable that the limit has been nearly reached.

The first and second grade room at the Westlands has been badly overcrowded since September. At the present time there are 50 pupils in the room,

which has seats for only 42. The condition is undoubtedly a permanent one, not a temporary, since home-building is continuing in that section of the town and new families are coming in each month. As the large classes in the primary grades advance, the other rooms will be unable to seat all the pupils entitled to attend. A remedy for the time being has been found by transferring the first grade pupils to the Westlands Community Building, but in the near future some other solution must be found.

TRANSPORTATION

A total of 671 pupils are being transported this year, 330 to the High School, 170 to McFarlin, 86 to Princeton St., 54 to Quessy, and 31 to South. The table shows the changes in the last three years.

	1937	1938	1939
High School	297	329	330
McFarlin	157	168	170
Princeton St.	70	80	86
Quessy	60	52	54
South	<u>35</u>	<u>40</u>	<u>31</u>
Total	619	669	671

Roughly two-thirds of the pupils attending South Chelmsford School are being carried, the majority of them from Littleton Road or roads leading into Littleton Road. We now have two vacant rooms in the McFarlin School, previously used by the High School. From an educational viewpoint the pupils now at South Chelmsford could be better cared for at McFarlin. In many cases parents would like their children to be carried to the McFarlin School. The matter is worth careful consideration.

THE HIGH SCHOOL

The addition to the High School building fills a need that has been manifest for many years. The original building, designed for a school of 225 pupils, was being used to capacity according to state standards ten years ago. As the school has grown from year to year since 1930, basement rooms not designed for classrooms have been put into use, more seats crowded into the old classrooms without regard for seating regulations, and finally two rooms used in the McFarlin School. Now the school has six new classrooms, toilet facilities adequate for a school of 600 pupils, larger rooms for commercial work and for science, and an assembly hall which will seat the entire school, fitted out with stage, curtains, and equipment for school exercises and entertainments. Without undue crowding the building will provide for a school somewhat larger than the present one, and the design of the addition is such that four more classrooms can be added, if needed, at a minimum cost.

The school system does not provide for any type of vocational education. As stated in last year's report, Chelmsford is offering much less in this line than other towns in its class. True, some boys and some girls have attended Lowell Vocational School, and with the opening of the new Lowell Trade School it is probable that an increased number will apply for admission there. There is need of more hand-work in our schools, or courses in practical arts, both in the upper grades and in the High School. The trend of the times in education is away from the formal, book-study type toward broader courses which aim to meet the peculiar needs of a greater number of students and to prepare for more lines of work. Stated in another way the trend is away from preparation chiefly for "white collar" jobs to an education which will prepare equally well for skilled trades.

The table below shows the enrollment of Chelmsford pupils in Lowell Vocational School for the last five years.

	1935	1936	1937	1938	1939
Boys	19	27	10	6	10
Girls	<u>4</u>	<u>5</u>	<u>5</u>	<u>6</u>	<u>10</u>
Total	23	32	15	12	20

The State reimburses the town for one-half the tuition paid, which is at the rate of \$150 per pupil. This reimbursement for the year ending August 31, 1938 was \$1586.95. The amount paid for the year 1939 was \$1952.79.

FINANCIAL SUMMARY

An itemized statement of school expenditures is given in the report of the Town Accountant. In the summary below the appropriations are those of the annual town meeting, as amended by the special meeting of December 19, 1939.

In conclusion I wish to express hearty appreciation for the fine cooperation of the many citizens and organizations whose willingness to assist teachers and pupils makes the administration of schools in Chelmsford a pleasure. As in the past, the parent-teacher associations have provided services which the town could not furnish, and have brought school and home into closer cooperation. The scout troops, 4-H clubs, and the American Legion have supplemented the schools in many ways. Mr. Marinel has furnished transportation beyond the terms of his contract, and the Police Department has rendered valuable assistance at games and at other times. The Lions' Club made possible for the second year the baseball league of the grammar schools, and furnished equipment and caps and sweaters. Seven citizens working untiringly with the School Committee brought the project of building an addition to the High School to a successful conclusion. Members of the business practice class in the High School have done much clerical work, and in particular were of assistance in preparing the many duplicate copies of equipment specifications which were

necessary for the new building. The work of typewriting this school report was done by a member of this class. To these and to all others who have been of assistance, and to you, the members of the School Committee, in behalf of the teachers and pupils I express deep appreciation.

Mr. George S. Wright
 Superintendent of Schools
 Chelmsford, Massachusetts

My dear Mr. Wright:

I am pleased to submit herewith my tenth annual report as principal of Chelmsford High School. It is impossible to relate everything that happened here during the past year. Perhaps the record of a few of the events will be of such interest to parents and other taxpayers that they will wish to visit the school and see for themselves what their children are doing.

The total enrollment up to January 1, 1940 is as follows:

<u>Class</u>	<u>Number of Boys</u>	<u>Number of Girls</u>	<u>Total</u>
Post Graduate	1	7	8
Senior	44	42	86
Junior	56	55	111
Sophomore	75	68	143
Freshman	<u>82</u>	<u>77</u>	<u>159</u>
Total	258	249	507

This total of 507 is twelve more than the high record of January 1939. This table shows that there have been nine more boys than girls here this year.

The work since September has been very difficult for the pupils and the teachers because of the many irregularities and uncertainties due to the construction of the addition. All have been very patient, however, and much credit is due them for the excellent work done in spite of the many handicaps.

The excellent assembly room in the addition is a wonderful improvement over our former facilities. The assembly programs are made possible by the cooperation of pupils and teachers. The three principal objectives of these assemblies are to instruct the pupils, to entertain them, and to give them training and experience in talking before an audience. Parents and other citizens who are interested are welcome to attend any of these assemblies. They are held each Wednesday when school is in session from 8:30 to 9:15 A.M.

Indoor athletics and physical education are being carried on in the new hall with shower and dressing room facilities for both boys and girls, in a very much safer and healthier manner than has been possible heretofore.

The six new class rooms, the extra corridors, toilet rooms, lockers, teachers' rooms, and clinic for pupils who are taken ill in school all help the pupils and teachers to do more and better work than has been possible before. Every one is indeed grateful to the taxpayers for the very much improved school plant.

There are a few unsatisfactory conditions yet to be corrected. There is no lunch room in the building. We feel that each pupil should have a clean sanitary place where he can sit down and eat his lunch. The lighting conditions are very poor in some of the rooms in the old building. There are a few other defects the school authorities are working on that we expect to be remedied. I mention these conditions not in a spirit of finding fault but that the parents and taxpayers may know more about the conditions here in the high school.

The school day is not long enough to enable any pupil to do satisfactory work without studying at home. Every pupil in high school should study for at least two hours at home in preparation for each day's work at school.

More time is required for home study if college certificate grades are to be earned. A grade of 80 or better must be achieved by those pupils who are to be recommended for college entrance without examination.

It is rather difficult for any pupil without grade of college certificate work to gain admittance to any of the large majority of our New England Colleges.

The report of the Chelmsford High School Students' Fund as tabulated by our Vice Principal, Miss C. Edith McCarthy, is as follows:

ARTICLE 9. In the event of an affirmative vote under Article 8, to see if the Town will vote to raise and appropriate the sum of Three Hundred Dollars (\$300) or some other sum, for the purpose of planting and reforestation of the various lots of land enumerated in Article 8; or act in relation thereto.

ARTICLE 10. To see if the Town will vote to request the Department of Corporations and Taxation, Division of Accounts, to make an audit of all the Town of Chelmsford accounts; or act in relation thereto.

ARTICLE 11. To see if the Town will vote to instruct the Town Treasurer, to transfer Cemetery Perpetual Care Funds, from banks now paying one per cent interest per annum, to a bank or banks paying two per cent or more per annum; or act in relation thereto.

ARTICLE 12. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectman, to borrow in accordance with the provisions of Chapter 49, Acts of 1933, as amended, for the purpose of providing funds for meeting ordinary maintenance expenses, such borrowing in no event to exceed the amount of tax titles held by the Town; or to take any action relative thereto.

ARTICLE 13. To see if the Town will vote to raise and appropriate the sum of Seven Hundred Fifty Dollars (\$750), or some other sum, for the purpose of defraying the expense of foreclosing tax titles; or act in relation thereto.

ARTICLE 14. To see if the Town will vote to raise and appropriate the sum of Sixty-five Dollars (\$65.00), or some other sum, for the purpose of purchasing a "Vital Statistic Record Book," to be used in the Office of the Town Clerk; or act in relation thereto.

ARTICLE 15. To see if the Town will vote to adopt the following By-law:

"The Collector of Taxes shall be the Town Collector. The Town Collector, within the time limit prescribed by law for the collection of accounts due the Town, shall collect all accounts due the Town, except those set forth in Section 38A of Chapter 41 of the General Laws as amended. The said Town Collector may settle and adjust any such accounts upon such terms as he thinks for the best interests of the Town, or he may cause legal proceedings to be commenced in his name as Town Collector for the collection of any such accounts and may employ counsel for that purpose. The costs of said legal proceedings, including counsel fees, shall be charged to and paid by the Treasurer from the Collector's expense account. All bills for accounts due the Town shall state that all checks, drafts or money orders shall be made payable to or to the order of the Town of Chelmsford."

or act in relation thereto.

ARTICLE 16. To see if the Town will vote to raise and appropriate the sum of Twenty-one Hundred Seventy Dollars (\$2170) to pay the County of Middlesex, as required by law, the Town's share of the Middlesex County Tuberculosis Hospital, as assessed in accordance with the provisions of Chapter 111 of the General Laws; or act in relation thereto.

ARTICLE 17. To see if the Town will vote to create a Committee of four to work in conjunction with the School Committee to investigate the advisability of an addition to the Westland School; said Committee to make a full report of its findings at the next Town Meeting; the four members to be appointed by the Moderator; or act in relation thereto.

ARTICLE 18. To see if the Town will vote to transfer from the fund called "Sales of Cemetery Lots and Graves" a certain sum of money for the purpose of the care, improvement and embellishment of some or all of the cemeteries in the Town; or act in relation thereto.

ARTICLE 19. To see if the Town will vote to raise and appropriate a sum of money for the purpose of repairing and oiling the Twiss Road in that part of Chelmsford called North Chelmsford; or act in relation thereto.
