On Monday, the third day of March, 1952, being the first Monday in said month at 12 o'clock noon, for the following purposes:

To bring in their votes for the following officers:

- One Selectman for three years
- One member of the Board of Public Welfare for three years.
- One member of the Board of Assessors for three years.
- One member of the School Committee for three years.
- One member of the Board of Health for three years.
- One Cemetery Commissioner for three years.
- One Park Commissioner for one year.
- One Park Commissioner for two years.
- One Park Commissioner for three years.
- Two Public Library Trustees for three years.
- One Sinking Fund Commissioner for three years.
- Three members of the Planning Board for five years.
- One Constable for one year.

All on one ballot.

The polls will be open from 12 noon to 8 P.M., and to meet in the High School Auditorium at Chelmsford on the following Monday, the tenth day of March, 1952, at 7:30 o'clock in the evening, then and there to act upon the following articles, viz:

ARTICLE 1. To hear reports of Town Officers and Committees; or act in relation thereto.

ARTICLE 2. To raise and appropriate such sums of money as may be required to defray town charges for the current year; or act in relation thereto.

ARTICLE 3. To see if the Town will authorize the Selectmen to act as its agent in any suit or suits which may arise during the current year, with authority to settle and adjust claims or demands for or against the Town; and to employ counsel whenever in their judgment it is necessary; or act in relation thereto.

ARTICLE 4. To see if the Town will authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of revenue of the current financial year; or act in relation thereto.

ARTICLE 5. To see if the Town will vote to raise and appropriate a sufficient sum of money with which to meet bills of previous years; or act in relation thereto.

ARTICLE 6. To see if the Town will raise and appropriate the sum of Four Thousand Five Hundred Thirty-Seven and 87/100 (\$4,537.87) Dollars or some other sum to pay to the Treasurer of the Middlesex County Retirement System, the said amount being the Town's share of the pension, expense and Military service funds, or act in relation thereto.

ARTICLE 7. To see if the Town will vote to raise and appropriate the sum of Ten Thousand (\$10,000.00) Dollars, or some other sum to be used as a Reserve Fund at the discretion of the Finance Committee as provided in General Laws, Chapter 40, Section 6; or act in relation thereto.

ARTICLE 8. To see if the Town will vote to adopt the following by-law: "That the 'FINANCE COMMITTEE' in the Town of Chelmsford be comprised of five members, the same to be appointed by the Moderator and that the term of office be not more than three years from the date of appointment," or act in relation thereto.

ARTICLE 9. To see if the Town will vote to instruct the Board of Assessors to use the sum of Fifty Thousand (\$50,000.00) dollars or some other sum from the Free Cash in the Treasury for the reduction of the 1952 Tax Rate.

ARTICLE 10. To see if the Town will vote to transfer from Available Funds the sum of Twenty-Nine Thousand (\$29,000.00) dollars or some other sum to a Stabilization Fund in accordance with Section 5 (b), Chapter 40 of the General Laws; or act in relation thereto.

ARTICLE 11. To see if the Town will vote to sell at private or public auction the old hearse presently garaged at the Tool House in the Forefathers' Cemetery, or act in relation thereto.

ARTICLE 12. To see if the Town will vote to sell all the metal junk that belongs to the Cemetery Department, or act in relation thereto.

ARTICLE 13. To see if the Town will vote to raise and appropriate the sum of Five Thousand (\$5,000.00) dollars or some other sum, for the purpose of extending the water main to the North Chelmsford Dump and for the installation of a hydrant at the North Chelmsford Dump, or act in relation thereto.

ARTICLE 14. To see if the Town will vote to authorize the Board of Selectmen to purchase approximately eight (8) acres of land fronted by 412 feet, more or less, on Boston Road between that land now owned by Daisy Day and by Daniel J. Hart and wife, said land to be reserved for the future expansion and needs of Town Buildings or municipal areas, or act in relation thereto.

ARTICLE 15. In the event of an affirmative vote on the preceding article, to see if the Town will vote to appropriate or transfer a certain sum of money for the purpose of the said article, or act in relation thereto.

ARTICLE 16. To see if the Town will vote to raise and appropriate a certain sum of money for the purchase of two automobiles for the Police Department, said purchase to be made under the supervision of the Board of Selectmen, or act in relation thereto.

ARTICLE 17. In the event of an affirmative vote under the previous article, to see if the Town will vote to transfer by good and sufficient Bill of Sale, two automobiles now used by the Police Department, or act in relation thereto.

REPORT OF WELFARE AGENT

To the Members of the Board of Public Welfare and Bureau of Old Age Assistance and Citizens of the Town of Chelmsford, the following report of the Welfare Department is respectfully submitted:

The present staff of the Welfare Department is comprised of following named persons:

Carl A. E. Peterson, Chairman of the Board of Public Welfare
and Bureau of Old Age Assistance.
Quincy B. Park, Agent
Phyllis R. Brown, R. N., Social Worker
Esther D. Woodward, Senior Clerk
M. Virginia Dailey, Junior Clerk

During the past year this office received 63 applications for aid. Each request for aid was thoroughly investigated by the Agent or the Social Worker to determine the need for aid, also eligibility in accordance with Welfare laws. Fifty seven applications were approved and 6 were either voluntarily withdrawn or denied.

Twenty-five applications were made for aid from General Relief funds. Twenty-three were approved and one withdrawn and one denied.

Three applications were made for assistance from Disability Assistance funds, two of which were approved and one withdrawn.

There were seven applications for aid from Aid to Dependent Children funds with four applications being approved and three denied.

There were 28 applications for Old Age Assistance all of which were approved.

WELFARE

Case Load 1951—39 for 66 persons

Case Load 1952—32 for 75 persons

Expended	1951	1952
Cash Grants	\$ 14,266.24	\$ 4,903.70
Material Grants	9,361.21	1,443.02
State Institutions	934.91	419.44
Other Cities and Towns	4,585.54	3,722.18
Totals	\$ 29,147.90	\$ 10,488.29

Comparisons of expenditures during past year and year previous shows a decrease which is largely attributable to the fact that a number of persons formerly aided with General Relief funds were eligible for aid from Disability Assistance funds.

From a financial standpoint this is a saving of town finances as 75% of monies expended is refunded to the town from State and Federal funds. Assistance given on General Relief is usually of emergency nature or for short periods of time and generally is caused by temporary unemployment.

DISABILITY ASSISTANCE

Case Load	16	20
Cash Grants	\$ 1,253.45	\$ 7,512.78
Material Grants	522.25	4,153.73
State Institutions		1,477.01
Totals	\$ 1,775.70	\$ 13,143.52

This category of assistance was authorized by Legislative action effective Nov. 1, 1951 and as stated previously 75% of monies expended are reimbursed to the town from State and Federal funds. Cases aided for past fourteen months were all formerly aided with funds from General Relief account and no reimbursement was possible.

To be eligible for Disability Assistance payments, applicant must be adjudged to be temporarily or permanently disabled by State Medical Review Team. Many of the cases on our rolls require considerable medical care and medication due to the nature of their disability. This fact accounts to a large degree for a higher payment per case, however, the State and Federal reimbursement feature results in a substantial saving to the town.

AID TO DEPENDENT CHILDREN

Case Load for 1951—27 for 73 persons		
Case Load for 1952—28 for 88 persons		
	1951	1952
Expended	\$ 23,699.43	\$ 36,259.00

Case load in this category of assistance remains quite constant from year to year. Primary reason for only minor changes is due to the fact that cases aided consist of families and the primary objective of Aid to Dependent Children program is for the purpose of assuring that families are kept intact. Three cases were closed during the year and four new applications were approved for payment.

OLD AGE ASSISTANCE

	1951	1952
Cash Grants	\$174,656.26	\$180,087.69
Material Grants	35,090.84	38,075.71
Other Cities and Towns	2,501.09	2,417.87
	<hr/>	<hr/>
Totals	\$212,248.19	\$220,581.27

Several Changes in the Old Age Assistance laws were made during the past year. The most important legislation which became effective January 1, 1952 was the law requiring a lien be placed on real estate of recipients of this category of assistance. Eight recipients of Old Age Assistance voluntarily requested that their cases be closed rather than accept a lien on their property.

Real Estate liens were registeerd with Middlesex Registry of Deeds on property in names of 72 recipients of Old Age Assistance. Recovery to the town has been made on three cases and one case is pending settlement at the close of the year.

Social Security payments were slightly increased to those eligible which resulted in a decrease from Old Age Assistance amount.

Medical expenses and hospitalization charges have increased and number of recipients requiring convalescent home care is larger than the year previous. These factors account for a larger expenditure of funds from this category of assistance. Twenty six cases are either in convalescent homes or receiving equivalent care in their own homes.

RECEIPTS TO TOWN TREASURER DURING PAST YEAR

Many of the citizens of the town have expressed an interest in amount of funds returned to the Town Treasurer from State and Federal reimbursement and from other cities and towns as reimbursement for aid given to recipients with settlements other than this town. For the information of all citizens the following figures are submitted regarding funds returned to this town.

OLD AGE ASSISTANCE

AID TO DEPENDENT CHILDREN

State Reimbursement	\$ 13,019.04	credited to E. & D. account
Federal Reimbursement	14,628.13	credited to A. D. C. account
<hr/>		
Total Reimbursement	\$ 27,647.17	

DISABILITY ASSISTANCE

Due to the fact that this program has only been in operation since November 1951 a complete report of annual reimbursement figures are impossible since reimbursement has only been received from Nov. 1951 to June 1952. The following amounts have been reimbursed to the town:

State reimbursement	\$ 6,172.11	credited to E. & D. account
Federal reimbursement	5,046.90	credited to D. A. account
<hr/>		
Total reimbursement	\$ 11,219.01	

GENERAL RELIEF

No Federal or State reimbursement provisions are provided in this category of relief. The town is reimbursed for total expenses of relief whenever aid is given to recipients who have State Settlement; also reimbursement in case relief is given where recipient has a settlement in other city or town in the Commonwealth.

During the past year a total of \$6,563.44 has been returned from other Cities and Towns and the Commonwealth and has been credited to Excess and Deficiency account.

SUMMARY

Total reimbursement from above accounts credited to	
Excess and Deficiency Account	\$122,524.88
Total reimbursement from above accounts returned to	
Aid program	105,259.74
<hr/>	
Total reimbursement to town from State and Federal funds	\$227,784.62

In addition to previous figures quoted, reimbursement is given for Administration expenses of the Welfare Department. These funds are credited to and used for administration expenses and during the past year were as follows:

O. A. A. Administration	\$ 3,949.83
A. D. C. Administration	1,067.12
D. A. Administration	443.38
<hr/>	
Total	\$ 5,460.33

We are requesting that salaries of the Senior and Junior clerks, also salaries of members of the Bureau of Old Age Assistance be approved to be paid from this fund, thereby making a saving to taxpayers of these expenses which will total \$4,480.00.

REPORT OF THE CHELMSFORD LIBRARY TRUSTEES

To the Board of Seelctmen:

During the year 1952 the Chelmsford Library Trustees held eleven meetings, with the meeting place alternating between the Adams Library and the Anna C. MacKay Memorial Library. In March, the following officers and staff were elected:

Chairman	Mr. E. Wayne Jenkins
Secretary	Miss Marjorie B. Scoboria
Treasurer	Mr. Eustace B. Fiske
Purchasing Committee	(Chm.) Mr. Howard Smith
	Miss Ethel Booth
	Miss Bertha Whitworth
	Mrs. Lester Ball
	Mrs. Fred Laton

Librarians:

Adams Library	Mrs. Lester Ball
Anna C. MacKay Memorial Library	Miss Bertha Whitworth

Assistants:

Adams Library	Mrs. Fred Laton
	Mrs. William Pickles
Anna C. MacKay Memorial Library	Miss Janet McEvoy

Janitors:

Adams Library	Mr. Joseph Geary
Anna C. MacKay Memorial Library	Mr. Thomas Roach

In June, the Trustees accepted with regret the resignation of Mrs. Frederick Burne. For several years Mrs. Burne has accommodated the people of West Chelmsford by having a book deposit at her home. This service will be missed.

Routine repairs have been made in both libraries, and the dome of the Adams Library has been insulated. In the near future a modern heating system will be installed in the Adams Library.

Exhibits in the Adams Library during the year included old books, manuscripts and documents by the Chelmsford Historical So-

ciety with Miss Gertrude Roberts and Miss Eleanor Parkhurst arranging the exhibit; Shells loaned by Miss Barbarann Howard, Miss Eileen Cummings, Miss Marilyn Vaipan, and Miss Lillian Perko of Grade VIII of the McFarlin School; Girl Scout work, Mrs. Thelma Kendall, Leader; Coins by Mr. Douglas Schliebus and Mr. Bruce Clements of the High School; Knives old and new, by Mr. Bruce Clements; 4-H Club work, Mrs. Christy Pettee, leader; Synthetic yarns, staples and finished products, loaned by the Southwell Combing Company of North Chelmsford, then donated to the Anna C. MacKay Memorial Library as a permanent exhibit, this exhibit secured by Miss Ethel Booth; Marquetry by Mr. Herbert French and Mr. Jason French of West Chelmsford; Christmas exhibit by the pupils of the East Chelmsford School under the supervision of Mrs. Jessie Brown, Principal, Mrs. Patricia Dion, Mrs. Kathleen Coles, and Miss Marion Mello.

In December, the Trustees accepted the resignation of Miss Janet McEvoy. Her position was filled by Miss Sylvia Ostman of North Chelmsford.

The Trustees and Library staff appreciate the confidence of the townspeople and are putting every effort into giving the best service possible.

Respectfully submitted,

MARJORIE B. SCOBORIA

Secretary.

REPORT OF THE ADAMS LIBRARY LIBRARIAN

To the Board of Selectmen:

The Adams Library has continued to function in much the same way as formerly. Each year every effort is made to improve the service to the townspeople.

A number of persons have shown a kindly interest in the Adams Library by donating books. The donors were Mrs. Fenner H. Peckham, Mr. and Mrs. Ulysses Lupien, Mr. and Mrs. George Bruyere, Mrs. Bernard F. Howland, Mrs. Methe, Mrs. Austin Cook and Mrs. Warren Lahue.

The Chelmsford Garden Club has furnished appropriate decorations for several months of the year, a service which is much appreciated.

There has been an increase in circulation over that of 1951. This was due in part to the fact that so many of the newer residents of the town have become regular borrowers. Another reason for the increase is that more pupils than in previous years have obtained books for school use.

At the end of June it became necessary to discontinue the monthly deposits at West Chelmsford. On the other hand, more books and magazines were sent to East Chelmsford than in 1951.

The statistics for the year 1952 follow:

Fiction	19,037
Non-fiction	7,196
Total	26,233
New books	577
New borrowers	257

To the Trustees and all others who have contributed in any way toward making the past year pleasant and successful, I am very grateful.

Respectfully submitted,

ADELAIDE W. BALL,

Librarian.

REPORT OF THE BOARD OF FIRE ENGINEERS

January 17, 1953.

Board of Selectmen,
Chelmsford, Mass.

Gentlemen:

The Board of Fire Engineers herewith submits its report for the year ending Dec. 31, 1952.

During the year, the department responded to 177 alarms for fires other than grass fires, also to 11 out-of-town calls for aid and 17 calls for the emergency truck.

The department co-operated in a regional Civil Defense test, sending two companies to **Tewksbury**.

Due to the co-operation of the townspeople in voting funds, the department was able to tie in the South district with the Center fire alarm system, and to repair and rebuild old Engine 4 for use as a reserve truck. At South Chelmsford station, toilet accommodations were provided for the first time.

A considerable amount of new equipment for the men was purchased during the past year and this will be continued until the supply is adequate for the entire force.

During 1952 the members of the North company staged a drive for funds and purchased a resuscitator which now is available for use wherever needed, and the members of the East company repainted the interior of their station.

In closing, the Board extends its thanks to the Board of Selectmen, to all town departments and to the townspeople for the co-operation given it during the year.

Respectfully submitted,

BOARD OF FIRE ENGINEERS
ALLAN KIDDER,
GILBERT PERHAM,
WILLIAM COLMER,
LEO WILLIAMS,
CHARLES HARRINGTON.

REPORT OF THE BOARD OF HEALTH

During the current year this board appointed Mr. Arthur J. Kavanagh to the office of Health Agent, Sanitarian and Milk Inspector for the Town of Chelmsford. Mr. Kavanagh however, resigned in September to enter another branch of public health. On September 29, 1952 Mr. Patrick A. Thibeau assumed the duties of this office signing a contract for one year.

PERSONNEL

The board of health in it's present make-up consists of three elected members. These constitute the ruling body of the health department. It is to them that the agent must consult in matters concerning the course he takes. They meet regularly with the agent to discuss and act upon matters that concern the health of the community, various contracts, licenses and bills incurred by the department. The department also consists of an agent and sanitarian who carries out the will of the board, enforces their regulations and acts in their behalf. His chief duties concern themselves in the field of environmental sanitation, administration and the control of communicable diseases in the community. Mrs. Helen Jewett as the nurse, conducts daily health inspections of the school children. In this capacity she refers those that are ill to the family physicians through the parents. In this way infection from child to child is greatly curtailed. Plumbing installed in the Town of Chelmsford must be approved by the Plumbing Inspector, Mr. George Gagnon. It is his duty to see that household plumbing conforms to the regulations of the board of health. The reason that this function lies within the scope of the health department, is that the sewage that the plumbing system carries is potentially dangerous as it frequently carries disease producing organisms. Leakage therefore in the plumbing system is a menace to health whether it occurs in the house where infection of food is possible, or in the ground outside where well supplies or the municipal system may be contaminated. All meat whether it be from cattle, sheep, hogs or horses must be inspected and approved by the Meat Inspector, Mr. Spencer Chamberlin. Meat infected with tuberculosis, anthrax, hog cholera, tape worms and the like are condemned. Also associated with this department are; the two physicians to the board, the Dog Officer, the garbage collectors and the contractor for the care of the North Chelmsford dump.

The reports of the school nurse, the plumbing inspector, the meat inspector and Dog Officer are contained elsewhere in the Annual Town Report. The report of the Board of Health and agent are contained herein.

CONTAGIOUS DISEASES

The incidence of contagious disease fluctuated from a high of 108 cases in one month to only one in another. Of particular significance is the occurrence of childhood diseases and the decrease of diseases associated with poor sanitation as typhoid fever and amebic dysentery. This fluctuation is best shown on the following graph.

Chelmsford Morbidity Rate According to Months—1952

In 1952, seven times as many communicable diseases were reported to the health department than in the year 1951. The most probable reason for this was:

1. Outbreak of childhood diseases particularly chicken pox and measles
2. Better reporting of cases

The following is a summary of communicable diseases reported in 1951 and 1952.

	1951	1952
Anterior Poliomyelitis	0	0
Amebic Dysentery	0	2
Bulbar Poliomyelitis	0	1
Cebro-Spinal Meningitis	0	2
Chicken Pox	13	113
Dog Bite	16	25
Encephalitis	0	1
German Measles	1	31
Measles	4	143
Mumps	1	10
Rabies	0	1
Scarlet Fever	7	2
Tetanus	0	1
Tuberculosis	1	0
Whooping Cough	3	0

Tuberculosis

A tremendous decline in the incidence of tuberculosis has occurred throughout the country in recent years. This decline is also reflected in Chelmsford. This year we are happy to state that not one case was reported from our town. In the course of the year, we had only three cases in the sanatorium. These were carried over from previous years. At the present time, two have been released from the sanatorium. Seventeen house visits were made during the year to persons who had positive sputums. In these visits, these persons were urged to have periodic check-ups. Through the courtesy of the local tuberculosis committee, the health department inserted with the water bills, slips granting the recipient an opportunity to have a free chest x-ray. Through this medium, we hope that we were able to contact many of the town's people. Additional slips may be obtained from the office of the health department.

In respect to tuberculosis control, all food handlers in town are required to have an annual chest x-ray. This is mandatory for the issuance of a restaurant permit.

Measles

In this year, 143 cases of measles were reported. This represents an increase of about 350% over 1951. The outbreak did not confine itself to this locality but was nation wide. It has been found that these epidemics occur in three year cycles. Therefore we should not expect another measles epidemic until 1955.

SANITARY INSPECTIONS

The following is a summary of inspections conducted in those establishments offering food and/or drink for public consumption.

Eating and/or drinking establishments	64
Grocery Stores	23
Bakeries	2
Soft Drink Plants	1
School Cafeterias	3

In this year much improvement was noted on the tours of the various establishments. The town's sanitary rating for compliance with our restaurant code is about 88%. This represents an increase of about 25% over 1950. There is almost complete compliance to the more important items of restaurant sanitation namely; bactericidal treatment, storage of utensils, wholesomeness of food, refrigeration and general cleanliness. This reformation is not as apparent to the casual customer, as most of the improvement is in the kitchens and storage rooms where food is prepared or stored.

In most cases the cooperation given by the owners and employees has been excellent. Their understanding of the sanitary significance of the various inspection items in a great measure accounted for this improvement.

Milk Sanitation

This department controls and regulates the quality of Chelmsford's milk supply. Although milk is perhaps nature's most nearly perfect food, it is also an excellent media for the growth of infectious organisms. Because of this, rigid control must be maintained on the product. The sanitation of the milk industry however, has now reached a point where such diseases as typhoid fever, scarlet fever, infantile diarrhea, tuberculosis are rarely traced to milk. It is however our intent to be ever vigilant and to maintain the present high quality of our supply.

Approximately 40 stores or other businesses are licensed to sell milk and cream. To be eligible for a license, each establishment must show to the satisfaction of the department, that proper refrigeration and storage is accorded the product.

In addition to the stores, there are thirty licensed milk dealers serving the Town of Chelmsford. Of these, five are located in the town itself, while the others travel as far as from Nashua, N. H. Each month samples are taken from the delivery trucks or pasteurization plants. These samples are then brought to the laboratory for analysis. Comments in how best the milk may be improved or warnings are sent together with the results to each dealer. Close scrutiny is paid to the conditions of the plants and the manner in which the product is pro-

cessed on these monthly tours. The result of these efforts are apparent with each month.

Sewage Disposal

In this year approximately 150 permits were issued by this office for the installation and construction of private sewage systems. Inspections were made primarily to see that these systems were properly constructed to prevent the creation of nuisances and to safeguard the water supplies, both public or private. As more building continues, and as the average house lot decreases, the necessity of close supervision is apparent.

NUISANCE COMPLAINTS

In this period, thirty complaints were received by the health department. A summary of these complaints are as follows:

Sewage	14
Animals	3
Dumping	9
Housing	3
Water	1

Nineteen of the above complaints have been abated. Investigation of four complaints showed no evidences of nuisances existing. Final action is pending on those remaining.

As can be seen, the greatest number of complaints received were associated with, or because of (sewage). Most investigations showed that insufficient absorption area was afforded the individual systems. Another prominent reason for overflowing cesspools was because the ground was saturated from older systems.

Another problem confronting this department is that of unlawful dumping. In many sections of this town, thoughtless persons have thrown their refuse on private property or beside town roads. This is not only unsightly to the eyes but with the advent of warmer weather, these refuse heaps afford an excellent site for the breeding and harborage of vermin and insects. As it is generally impossible to catch a person in the act of discarding of his refuse, this department can only post such areas and notify the police. The North Chelmsford dump is being maintained at considerable expense to this department. We ask all to bring their rubbish there for disposal.

To prevent the creation of more roadside dumps and to present an efficient means of refuse disposal, this department will with the consent of the people institute a system of waste collections.

SCHOOL INSPECTIONS

In February and December of this year, all the schools of the Chelmsford Public School System were visited and inspected. This inspection involved three major items namely: general sanitation of

the school proper, safety through the elimination of possible hazards, and the cafeterias.

Conditions in all the schools were found to be good. The results of these inspections together with recommendations were sent to the appropriate authorities.

OTHER SANITARY INSPECTIONS

In this year the four kindergartens in Chelmsford were inspected and licensed. As in the case of schools, general sanitation and safety were emphasized. Convalescent and nursing homes were also visited.

HEALTH EDUCATION

This year saw the Board of Health install a pamphlet rack and bulletin board in the lobby of the town hall. These were placed there to permit the dissemination of health literature to the citizens of Chelmsford. It is to be hoped that this will provide a means of conveying health information to the readers. These pamphlets and posters range from care and recognition of infectious diseases to the nutritional value of certain foods. We urge all to make use of this service.

Rules and regulations of the Board of Health may be had either from the pamphlet rack or from the office.

INCOME OF THE HEALTH DEPARTMENT FOR 1953

Plumbing Permits	\$ 1,500.00
Slaughtering Fees	700.00
Sewage Disposal Permits	300.00
Slaughter House Licenses	70.00

CONCLUSION

The Board of Health was happy to serve you during the year. In the past, we trust that our efforts in your behalf met with your approval. It is also to be hoped that you will continue to lend us your support. At this time, we also wish to thank the other town officials who cooperated with us to make this a clean healthy town for our citizens.

REPORT OF THE PLUMBING INSPECTOR

Board of Health
Chelmsford, Mass.

Gentlemen:

Following is my report as plumbing inspector for the year ending December 31, 1952.

REPORT OF ANIMAL INSPECTOR

Board of Selectmen

My thirty-eighth annual and final report covers the period from Jan. 1st to Sept. 15, 1952 when I was obliged to resign due to age limit requirements.

Nine cattle were shipped into town from other States accompanied by the proper health certificates and all were released on identification. Fifty dog bite cases were reported and investigated, thirty-two dogs were quarantined for a two weeks period of observation and then released as their condition was normal. The eighteen others were bites of dogs that could not be located, or were reported more than two weeks after the bites and were not rabid at that time.

I wish to express my appreciation to the physicians, police and health officials for their helpful cooperation in reporting the dog bite cases over the past years.

Respectfully submitted,

ARNOLD C. PERHAM,

Animal Inspector.

REPORT OF ANIMAL INSPECTOR

Board of Selectmen:

Gentlemen:

I herewith submit my report as Inspector of Animals from September 17 to December 31, 1952.

The annual inspection of all dairy cattle, sheep, swine and horses has been completed and the list totals 615 Cows, 156 Heifers over one year, 124 Heifers under one year, 22 Steers, 24 Bulls, 17 Sheep, 15 Goats, 530 Swine and 28 Horses, in 85 different stables.

All dairy cattle have been tested for tuberculosis under State and Federal supervision, as provided by law.

A serious outbreak of Vesicular Exanthema occurred on December 6, 1952. One large herd of swine has been quarantined. The United States Department of Agriculture, Bureau of Animal Industry and the Division of Livestock Disease Control were notified and they responded promptly.

All swine in the Town were examined by Dr. Henry Polansky of the Bureau of Animal Industry, assisted by your Inspector of Animals. Tests were conducted to determine the exact nature of the disease and to prove that it was not Hoof and Mouth Disease. The symptoms of Vesicular Exanthema and Hoof and Mouth Disease are the same, and tests on dairy cattle must be conducted to determine which disease it may be.

A bill is now pending in the State Legislature to reimburse the hog raisers whose herds are infected. The State and Federal governments to share in the cost.

Twenty-five cattle were shipped in from other States accompanied by the proper health certificates and all were released on identification.

A new law went into effect September 1, 1952 requiring that all heifers raised for dairy purposes be vaccinated against brucellosis, between the ages of four and eight months.

Thirty-five dog-bite cases were reported and investigated; twenty-six were quarantined and later released as no rabies developed; the others were not quarantined.

Respectfully submitted,

GILBERT H. PERHAM,
Inspector of Animals

REPORT OF THE MIDDLESEX COUNTY EXTENSION SERVICE

The Middlesex County Extension Service is an organization maintained by the County in cooperation with the University of Massachusetts and the United States Department of Agriculture to serve the citizens of the town in the field of agriculture and home economics. The work is carried on under the guidance of the town director who is assisted by the chairman in homemaking and boys and girls 4-H Club work.

The county office makes farm and home visits to help when requested and, in addition, carries on organized projects County-wide under the guidance of farmers' and homemakers' service on County Committees.

Radio service is maintained weekly on WBZ; monthly on WHDH and five days a week during the summer on WKOX. A monthly bulletin with a circulation of 5,000 is maintained and timely notices of interest to dairymen, fruit growers, market gardeners, poultrymen and commercial florists are sent to anyone as requested.

Some of the special activities of local interest follow. Dairymen were primarily interested in cooperating in the New England-wide Green Pastures Program, the Dairy Herd Improvement Association, Owner-Sampler work and Selective Breeding.

The Extension Poultry Program in 1952 was keyed to help poultrymen and turkey growers to improve the efficiency of their operations, maintain flock health and take better advantage of their marketing opportunities. Efforts were made to provide breeders with information which might help them to hold their prominent place in the industry and routine service was provided in all phases of poultry and turkey farming.

Walter F. Lewis, Robin Hill Road and Vinson Reid, Littleton Road, are members of the Advisory Committee which plans the Extension Poultry Program. Several Chelmsford poultrymen and turkey growers participated in the 1952 Middlesex Flock Health Program, including Willis Bursey, 78 School Street, Arthur W. Howard, Jr., 204 Concord Road, Romeo V. Noel, 40 Parkhurst Road, John Parkinson, 29 Jordan Street and Meindert Schults, 46 Wilbur Street. Mr. Bursey

is vice-president and Mr. Lewis secretary of the Middlesex County Poultry Association, while Mr. Schults is a Director of the Minuteman Turkey Association.

A spray service is maintained by radio to all fruit growers as well as market gardeners. Fruit growers also follow closely the weekly twilight meetings held during the growing season to keep abreast of production and marketing problems. There has been an increased demand from home-owners for information on vegetables, flower gardens and lawns.

In order that Chelmsford women might have a clearer understanding of the opportunities afforded by the Extension Service, Mrs. Philip St. Germain invited representatives of the leading women's organizations to a meeting with the Home Demonstration Agents. A general picture of the larger objectives of the Home Demonstration program was outlined, current programs described, as well as plans for the future. As a direct result of this five groups requested the "Christmas Everywhere" program, seven women attended a leader training course in Textile painting and in turn taught local groups what they had learned. Chelmsford was also represented at the leadership course in American Country and Folk Dancing.

4-H Club work showed an increase in activity in 1952 with boys and girls enrolled in dairy, garden, poultry, foods, clothing and craft clubs.

The Lowell Electric Light Company cooperated with the Chelmsford 4-H Town Committee by offering an intensive six weeks course in food preparation and kitchen management. Thirty girls took advantage of this opportunity.

Philip St. Germain attended Junior Leaders' Camp for one week at the University of Massachusetts.

Nearly all 4-H Club members exhibited at the 4-H County Fair in Groton. Several members attended the 4-H Club Camp in Ashby.

Mrs. Philip St. Germain served as 4-H Town Chairman and was assisted by the following leaders and committee members. Mr. and Mrs. Walter Lewis, Mrs. Christy Pettee, Mrs. Raymond Eno, Mrs. Carl Johnson and Mrs. Elsie Parlee.

REPORT OF THE BOARD OF APPEALS

To the Honorable Board of Selectmen:

Gentlemen:

The Board of Appeals acted on eighteen requests for variances in the Town Zoning Laws during the year 1952. Seventeen were granted and one was denied.

REPORT OF THE DOG OFFICER

January 16, 1953

To the Honorable Board of Selectmen:

The following is a report of my services as Dog Officer for the year 1952:

Dogs picked up	57
Dogs disposed of	53
Dogs called for by owners	4
Lost dogs located and returned to owners	22
Complaints investigated and miscellaneous calls	83

In addition to the above, I disposed of 84 dead cats, 34 dead dogs, and 21 miscellaneous dead animals picked up on the streets.

Respectfully submitted,

CHARLES G. FULLER,

Dog Officer.

REPORT OF THE CEMETERY DEPARTMENT

Your Commissioners are satisfied with the progress of the Cemetery Department. There is considerable work to be done and will take equipment to do this work thoroughly. This last spring we have spread considerable lime and fertilizer through out all cemeteries and hope to continue this work for a few more seasons.

The checking of records has involved answering many inquiries personally or by letters concerning many interests a lot owner or their heirs may be concerned about. In most cases inquiries were made for the purpose of ultimately putting their lots under perpetual care. A complete check of any lot is necessary and its present condition determined before a lot is accepted for perpetual care. After all the checking is done the party interested is referred to the Town Treasurer, so as to establish a trust fund on any lot.

We are constantly encouraging lot owners to put lots under perpetual care on the older lots.

Considerable work was done in checking the Pine Ridge Cemetery due to an area used for burial which was not previously plotted on the map. Boundary posts were also set through an area of eight-grave lots on Oak Avenue which has been under question for some time. Upon checking this area an additional eight-grave lot was established which did not show on the map, possibly due to the contour of the road. On Cedar Avenue eighteen eight-grave lots were laid out into four-grave lots. In all thirty-eight four-grave lots were established for use of families requiring smaller lots. These are located in a central place and we feel they will provide for a much needed requirement. Also fifty-six single-grave lots were laid out and plotted in a new area developed at the left of the main entrance and room for considerable more.

Many trips were made to Hart Pond Cemetery to identify lots for owners or heirs. Also an area was laid out and plotted for fifteen eight-grave lots. It was discovered that the layout on the map does not correspond with the location of the lots in many cases. It would seem advisable and necessary to make a corrected map in order to eliminate future questions of location.

Fairview Cemetery is laid out with many oversize lots and a re-distribution of these lots should be made.

New maps have been made of Pine Ridge, West Chelmsford and Riverside Cemeteries. It would seem wasteful to go ahead with maps for the rest of the group until they are plotted and laid out for practical use.

We intend to carry out this good work and try to get our Cemeteries on an equal and self-supporting basis as any cemetery in this area and saitsfactory beauty to our Town.

Your Commissioners and Superintendent wish to express our thanks to the Board of Selectmen and all other Town officials and Departments for the cooperation given us during the year.

Respectfully submitted,

FRANK H. HARDY, Chairman

ARTHUR J. COLMER, Clerk

ARNE R. OLSEN,

Commissioners

**REPORT OF THE SECRETARY OF THE
VETERANS EMERGENCY FUND COMMITTEE**

To the Honorable Board of Selectmen
Town of Chelmsford

Gentlemen:

The Veterans' Emergency Fund Committee wish to submit their annual report to you and to the townspeople of Chelmsford.

As in recent years, the business of the committee has been exceedingly small as there have been no cases who need assistance that have been brought to the attention of the committee members. All aid for Veterans has been accomplished through the office of the Veterans' Benefits Department under the guidance of Mr. Gordon P. DeWolf. During these years of relative prosperity it is believed that most requests for aid can be handled under the Veterans' Benefits Office, thus allowing the Emergency Fund to grow with added interest and dividends each year.

Our fund was able to operate without a single cost of administration. In past years the fund has paid for the bonding of its treasurer, Mr. Perry T. Snow. During 1952, this procedure was changed and now Mr. Snow is included in the blanket bond carried by the town for all employees who handle town funds. This was accomplished through the advice and assistance of Mr. Eustace B. Fiske and Mr. Warren C. Lahue. The committee wishes to thank these civic minded persons for their assistance as now the fund can be increased more each year.

The committee by precincts is listed once again and applicants desiring assistance should contact their precinct representatives:

Center—Precinct 1	George Archer
North—Precinct 2	Joseph Sadowski
West—Precinct 3	Perry T. Snow
East—Precinct 4	Edward G. Krasnecki
South—Precinct 5	George Waite
Westlands—Precinct 6	Alfred H. Coburn

Respectfully submitted,

ALFRED H. COBURN,

Secretary.

DEPARTMENT OF VETERANS' SERVICE

To the Honorable Board of Selectmen
Chelmsford, Massachusetts

The Veterans' Benefits Department in 1952 aided twenty-six cases and expended \$10,110.00, a decrease of \$555.87 from the previous year. This decrease was due to the fact that the medical bills for the year 1952 were very much less than in 1951.

The number of cases aided was twenty-six, the same as in 1951, but the number of permanent cases increased to ten. This would indicate a probable increase in the 1953 expenditures.

As you know, the State Government reimburses the Town of Chelmsford for one-half of the Town Appropriation, which means that we get back \$5,055.00 of the money we spent in 1952. In return the State Commissioner approves all applications for Veterans' Benefits before any money can be paid out and prescribes the regulations your Veterans' Agent must adhere to. They also set up the budget for payments to Veterans' Benefits cases. In addition a field investigator checks all cases in addition to your local agent's investigation.

Yours truly,

GORDON P. DeWOLF,

Veterans' Agent.

REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen:

The Planning Board had a decided turnover of personnel in 1952. At the Annual Meeting the citizens of the Town elected two new members to our midst, namely, George S. Archer and Harold J. Pearson. Re-elected was John L. Dusseault. All three were elected for a term of five years. In May the Board regretfully accepted the resignation of Richard L. Monahan and on June 2nd, in conjunction with the Board of Selectmen, appointed Harold E. Clayton, Jr., in his place. Let it suffice to say that the Planning Board has missed his valuable and Professional advice as a civil engineer. Our regret at his leaving is only surpassed by the pressure of his own personal business affairs. It will be many a year before the Town will be fortunate enough to replace such a valuable asset to our Department.

During the past year the Board held fourteen meetings, five public hearings on sub-divisions, and two meetings with the Board of Selectmen on unaccepted streets.

Effective March 7th, 1952, the State Court passed a law requiring the Board of Health to advise the Planning Board as to the proposed method of providing for sanitary water supply, sewage disposal, and drainage on new sub-divisions.

There have been several demands for increasing the business areas in Town. In an effort to meet these demands, the Board approved a proposed increase in the business area on Boston Road, and advertised for a public hearing to be held in January 1953, for a business area on Chelmsford Street near the Lowell Turnpike overpass.

Late in the year, the Board met with the Town Counsel regarding our powers to enforce Sections 81a through 81y of Chap. 41 of the General Laws of the Commonwealth. His advice was that all that apply are in order and should be enforced by the Building Inspector. This is for the protection of purchasers of real estate that has not been registered at the Registry of Deeds. Far too many have spent their life savings building the cellar foundation and framework of their house to find to their amazement that the sub-division was never registered. This prevents any bank from granting a mortgage for the balance of the construction needed by the owner. Only too often in the past few years of sub-division booms, have unethical or honestly

ignorant land owners sub-divided their land and sold lots without first appearing before the proper authorities. We are striving desperately to prevent any further misfortunes of this type.

Some work has been done on a master plan of all streets and roads, old and new, in the Town, but more funds will be needed to finish this most important work. With the appropriation asked for in the Town budget, we hope to tie in all future streets in a more orderly and efficient manner so that if a public sewage system is ever voted it will find an effective and practical base to start from, rather than the hit or miss sub-dividing that has transpired since 1655. We solicit your support and promise our unbiased efforts for the good of Chelmsford in 1953.

At the outset, I wish to extend my thanks to the Board of Selectmen and to other town officials and departments for the whole-hearted co-operation which has been given to the Police department during the year, and to the people of the town for their support of the department and its activities.

I wish also to extend my thanks to the Civil Defense committee for its co-operation, for it was through this committee that the department was able to secure teletype service which links the department with all other major police departments and the state police headquarters throughout the state. This service has been used to great advantage during the year and I hope that it will become a permanent fixture. Crime today, due to the use of automobiles by criminals, knows no town lines and the teletype provides a means of instant notification

to all police departments when a crime is committed and permits an efficient method of warning when criminals are active, so that all police throughout the state may be on the lookout for the criminals and their capture may be expedited.

The department is particularly proud that in 1952 it received, for the first time, the Pedestrian Safety award issued by the National Safety Council. In this connection it should be noted that a great deal of time is given by the police in safeguarding the highways of the town and it is a pleasure to report that the results of this work have received state-wide recognition.

A great deal of time was spent by Police checking on property left vacant during the vacation season. This work has been extremely effective but, to be most useful, the co-operation of the citizens is required in that the police must be notified of vacancies whenever homes are to be left unoccupied because of vacations or for other reasons.

Late in 1952, three members of the regular police force passed a Civil Service test for the position of sergeant. The need for such a position in the department is great. At present there is no one in a position of authority to take charge in the absence of the chief because of vacation, illness or other reasons. With a sergeant in the department, there would be an officer in charge at all times and this would greatly increase the efficiency of the department.

In accordance with a custom originated by this department, Hallowe'en parties were held in 1952 in all sections of the town, with the co-operation of many local organizations. These parties serve the dual purpose of giving the children a place to have fun and to keep them from mischief on the streets. The parties were largely attended and I wish to express my sincere appreciation to all for their untiring co-operation with the department at this annual event.

The continued growth of the town, with an annual increase of more than 100 homes and entirely new developments being opened up for occupation, places a heavy burden on this department and, in the interest of public safety, thought must be given to this problem. The police department is giving the maximum protection possible under the existing set-up, but every year adds problems and in the not too distant future it will have to be enlarged if the same protection is to be continued.

Respectfully submitted,

RALPH J. HULSLANDER,
Chief of Police,
Chelmsford, Massachusetts

REPORT OF THE CIVILIAN DEFENSE COMMITTEE

Chelmsford, Massachusetts

January 2, 1953

To the Honorable Board of Selectmen
Town of Chelmsford
Chelmsford, Massachusetts

Dear Sirs:

The Civilian Defense Committee of the Town of Chelmsford submits the following report for the year ending December 31, 1952:

Balance in Account January 1, 1952	\$ 1,756.51
Appropriation at 1952 Annual Town Meeting	560.00

Total	\$ 2,316.51
--------------------	--------------------

Purchase and installation of Receiver set for

No. Chelmsford Fire House	\$ 304.25
Portable Auxiliary Power Unit at No. Chelmsford Fire House	563.75
Installation and Rental Teletype Set—	
Police Department	324.26
New Oxygen Tank for Fire Department	37.50
Miscellaneous Exp.—Stationery, Postage, etc.	44.25

Total	\$ 1,274.01
--------------------	--------------------

Balance on Hand Dec. 31, 1952	\$ 1,042.50
--	--------------------

As in the preceding years, our policy has been to restrict expenditures to those items which would be necessary and useful in maintaining reasonable public health and safety standards. Whereas we are aware of the need for providing a reasonable program for Civilian Defense, it has never been our opinion that we were warranted in expending large sums of the taxpayers money in so doing.

We hope that whatever small contribution we have made to this worthy cause will be measured in terms of:

- (1) What has been actually accomplished.
- (2) Those features advocated at the state and federal levels and which the Committee has seen fit to eliminate as unnecessary expense.

Through the excellent cooperation received from the School Au-

thorities and our residents, there were 762 who availed themselves of the blood typing program made possible by the State Dept. of Public Health. We consider such a program as essential and hope that more of our Town's people may avail themselves of this opportunity in the future.

The First Aid Courses offered by the Red Cross should be made available during the coming year and it is hoped that a large number will become enrolled in this worthwhile program.

The Members of the Civilian Defense Committee each wish to express their sincere appreciation for the splendid cooperation received from the Board of Selectmen, the School Authorities and all other officials and town employees. This fine spirit has made our work much more pleasant and lighter.

Due to the pressure of other duties, we wish to take this occasion to tender our resignations and to extend to whomsoever succeeds us our best wishes and offer of assistance wherever necessary and possible.

Respectfully submitted,

CIVILIAN DEFENSE COMMITTEE,

U. J. LUPIEN, Chairman

THOMAS J. CAMPBELL,

REPORT OF THE CONSTABLE

January 15, 1953.

To the Honorable Board of Selectmen:

Gentlemen:

As Constable of the Town of Chelmsford, I wish to submit the following report.

Drawing and serving of Jurors: March 20; April 15; May 15; September 22; October 15; and November 17.

Posting of warrants for town election and meeting.

Posting of warrants for four special town meetings.

Posting of warrants for the Center Water District.

ROBERT F. McANDREW,
Constable of Chelmsford.

REPORT OF FOREST WARDEN

To the Honorable Board of Selectmen

The Forest Fire record for the year ending, Dec. 31, 1952 shows an increase over the previous year.

The record

1950	171 calls answered
1951	123 calls answered
1952	162 calls answered

The request for permits for fires in the open was greater than the previous year.

This was due somewhat to the system the State Dept. of Conservation has initiated in establishing a so-called, burning index, which guides persons in knowing when it is safe to burn in the open.

Considerable forestry hose became unfit for use during the year, due to age and normal wear.

The need for a tank truck for this department became more apparent this season.

Appreciation from the forest warden is extended to all companies of the Fire Dept. and all others who in any way assisted this Dept. in the past year.

Respectfully submitted.

ALLAN KIDDER,

Forest Warden

REPORT OF THE PARK COMMISSIONERS

To the Citizens of the Town of Chelmsford:

The Park Commission met April 7, 1952 and organized for the year. Ralph P. Adams as Chairman, William W. Edge as Secretary and Gilbert H. Perham as the third member.

A general program for the care and maintenance of the parks was set up. During the early part of the year a great deal of time was spent in building up and improving the existing turf. In order to do this, we continued our program of spreading lime and fertilizer on all the main parks. Loam and grass seed was sown in order to fill many bare spots. Work on the smaller parks was mostly the usual maintenance.

Flag poles were painted, re-rope and flags replaced where necessary. The pole on the Center common was straightened and the top masts of the poles on both the North and Center poles were inspected by steeple jacks.

Gilbert H. Perham resigned October fifteenth and Bradford O. Emerson was appointed to fill the unexpired term.

Through the continued cooperation of the townspeople, a program to develop floral plots and plant trees to further beautify our parks is being considered.

Respectfully submitted,

To the Board of Selectmen
Mr. Theodore W. Emerson, Chairman
Chelmsford, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Chelmsford for the period from June 28, 1951 to November 14, 1952, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

FRANCIS X. LANG,
Director of Accounts

Mr. Francis X. Lang

State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Chelmsford for the period from June 28, 1951, the date of the previous audit, to November 14, 1952, the following report being submitted thereon:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined, checked, and verified by comparison with the books of the town accountant and the treasurer.

The books and accounts in the town accountant's office were examined and checked in detail. The recorded receipts were checked with the treasurer's cash book and with the records of departmental payments to the treasurer, while the recorded disbursements were checked with the treasury warrants and with the record of payments by the treasurer.

The appropriations, transfers, and loan authorizations, as listed from the town clerk's record of town meeting proceedings, were checked to the appropriation accounts and loan authorizations in the accountant's ledger.

An analysis was made of the ledger accounts, the necessary adjusting entries resulting from the audit were made, a trial balance was drawn off proving the accounts to be in balance, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on November 14, 1952.

The entries in the classification book were examined and compared with the approved vouchers and payrolls on file.

The books and accounts of the town treasurer were examined and checked. The receipts, as recorded, were analyzed and compared with the records of payments to the treasurer by the several departments and with the other sources from which the town received money, while the recorded payments were compared with the selectmen's warrants and with the accountant's books.

The cash book was footed throughout for the period of the audit, and the cash balance on November 14, 1952 was verified by reconciliation of the bank balances with statements furnished by the banks of deposit, by examination of the savings bank books and securities, and by actual count of the cash in the office.

The payments on account of maturing debt and interest were verified by comparison with the amounts falling due and with the cancelled securities and coupons on file.

The tax titles and tax possessions held by the town were listed from the records of the treasurer and all transactions pertaining thereto were verified, including a comparison with the records at the Registry of Deeds.

The securities and savings bank books representing the investment of the several trust and investment funds in the custody of the town treasurer, the selectmen, the treasurer of the library trustees, the insurance fund commissioners, and the veterans' emergency fund committee were examined and listed. The transfers to the town were verified and the income of the several funds was proved.

The books and accounts of the town collector were examined and checked. The taxes, motor vehicle and trailer excise, and departmental accounts receivable outstanding according to the previous examination were audited, and all subsequent commitment lists were added and reconciled with the warrants for their collection.

The recorded receipts were checked with the payments to the treasurer and with the accountant's books, the abatements as recorded were compared with the departmental records of abatements granted, and the outstanding accounts were listed and reconciled.

Verification notices were mailed to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the outstanding accounts, as listed, are correct.

The records of dog, sporting, and town licenses issued by the town clerk were examined and checked, the payments to the State and to the town treasurer being verified.

The surety bonds of the financial officials bonded for the faithful performance of their duties were examined and found to be in proper form.

The accounts of the sealer of weights and measures and of the inspector of buildings, as well as of the police, fire, health, school, library, and cemetery departments, and of all other departments receiving money for the town, were examined and checked, the payments to the treasurer and the cash on hand being verified.

It was noted that the sealer of weights and measures, the inspector of buildings, and the police department made payments of their receipts to the town treasurer only at very infrequent intervals, and it is recommended that these receipts be paid to the town treasurer at least as often as once each month.

In addition to the balance sheet referred to, there are appended to this report tables showing a reconciliation of the treasurer's and the town clerk's cash, summaries of the tax, tax title, tax possession, and departmental accounts, as well as tables showing the condition and transactions of the trust and investment funds.

While engaged in making the audit, cooperation was received from the officials of the town, for which, on behalf of my assistants and of myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts.

REPORT OF THE HIGHWAY DEPARTMENT

To the Honorable Board of Selectmen:

With great pleasure I present my first Highway Department report for the period from April 7, 1952 to December 31, 1952.

My first months were a problem, learning the town by-laws lest I involve the town in any error — getting acquainted with the street conditions and existing problems which were many. The personnel had a problem learning my ways and I theirs; to date they have given me splendid co-operation.

The snow plows and sanding equipment were overhauled during the summer months to be ready for the winter storms.

There were new sidewalks constructed on Chelmsford Street, Billerica Road, Middlesex Street, Princeton Blvd. and Groton Road.

Drainage was installed between Evergreen, Wildwood, Juniper and Fern Streets. Also on Parkhurst Road, Grandview Road, Locke Road, Westford Street and Dunstable Road. The arch plates for Turnpike Road bridge finally came, but too late for installation this season. The large pipes are already purchased to extend the bridge on Warren Avenue.

With a hired paving machine portions of the following streets were paved:

Swain Road
Main Street
Hornbeam Hill Road
Linwood Avenue
Montview Road

All the gravel roads were scraped and graded. Thirty-five streets had some parts oiled or tarred. Many streets had shoulders cut back and widened. The new streets were oiled and made black top surface.

Patching holes from these open winters consumed a great deal of our time and money. Brush cutting was carried on as far as possible.

The Chapter 90, Maintenance consisted of mixed-in-place tops on Concord Road and Acton Road; repairing bad water condition on Riverneck Road and resetting cable guard fence.

The Chapter 90, Construction consisted of finishing Concord Road, starting the Groton Road project and specific repairs to Billerica Road.

White lines were painted with a line marking machine and Stop streets were lettered at intersections.

Street sign posts were painted; old street signs and Town line signs were refinished and replaced.

The usual maintenance of catch basins was carried out. Many drains were cleaned and spring cleaning of the sand taken care of.

Sand was stock piled for winter, snow fence erected and the usual winter work carried on.

I recommend that the town purchase a new grader to replace the present one which is badly worn, also one more sanding machine for winter sanding and sanding oil.

I wish to thank each department and all persons who helped the Highway Department, also everyone for the patience shown us.

Respectfully submitted,

ROBERT W. SEALEY,

Superintendent of Streets

REPORT OF THE SCHOOL COMMITTEE

To the citizens of Chelmsford:

At a meeting of the School Committee held on January 22, 1953, it was voted to approve the report of the Superintendent of Schools for the year 1952.

During the fiscal year of 1952 the School Committee held twenty-four regular meetings and eight special meetings. It has participated in all meetings of the North Building Committee and the "Needs" Building Committee. These two Committees held forty meetings during the year.

Two additional classrooms were required for the McFarlin School and two additional rooms were taken at the High School. We now use three High School rooms for elementary pupils.

During the summer vacation the interior of the McFarlin School together with the lunchrooms and auditorium at Westlands School were redecorated. The auditorium at the High School was given a new roof. Within three years the High School has been completely re-roofed. Another major repair was the new seepage tank at McFarlin School.

The chart following this report indicates the pressing need for additional housing facilities. This need is becoming more critical each year.

Respectfully submitted.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Chelmsford School Committee:

Herewith is a report of the operation of the Chelmsford Schools for the year 1952. It includes statements and statistics of value for comparative purposes. Further information and details may be secured at the office of the Superintendent of Schools.

STAFF

During the year we were grieved at the loss of our genial Supervisor of Instrumental Music, Bernard Larkin. His memory will live in the work he accomplished through the successful teaching of instrumental music to many Chelmsford boys and girls.

Our teaching staff now numbers 65 teachers. In September we had two new teaching positions and twelve replacements. Thus making fourteen new teachers for the year. A turn-over of nearly one-fifth of our teaching staff in one year is a serious problem. Many factors contribute to this situation. The demand and competition for good elementary school teachers will continue so long as the birth rate continues to increase.

In September 1952 the average salary of teachers in Chelmsford was approximately \$300.00 less than the median average salary of teachers in the 30 towns with a population nearest to that of Chelmsford as of the same date.

Our teachers are well prepared for teaching and they compare favorably with the towns in the State in professional improvement.

BOOKS AND SUPPLIES

In September, the number of pupils in the elementary schools was approximately 150 more than the previous September. As a result 150 complete sets of textbooks and teaching materials were required in addition to the normal replacements.

Naturally the plan for bringing text books up-to-date is accordingly retarded. Present plans should enable us to remedy this situation to some extent.

Improvement in teaching procedures increases the necessity for general school supplies as well as the increase in enrollment. These needs are being met so far as possible.

SCHOOL PLANT

Last fall the increased enrollment made it necessary to provide two additional classrooms at the McFarlin School and two rooms were taken at the High School. We now use three High School rooms for elementary purposes with resulting serious effect on the best work at the High School level.

Crowded conditions at the Princeton School were adjusted by transporting some pupils in grade one to the Quessy School and transporting pupils in grades 7 & 8 from the Quessy School to the Highland School.

Again, last year, some parents were inconvenienced by the necessary transfer of pupils between the Westlands and McFarlin Schools.

It appears that the new school will be adequate to house all pupils now attending the Highland, Quessy and Princeton Schools.

The situation at McFarlin School will be acute again next year with an expected two more rooms needed. No more rooms can be used at the High School and in order to secure adequate sanitary facilities it may be necessary for two or more grades to be transported to one of the school buildings to be vacated in the northern section of the town.

With the elimination of two or more antiquated school buildings there should be a corresponding decrease in the amount of the item for general school repairs.

LOOKING AHEAD

The North Building Committee expects to have the new school ready for the use of the School Committee before the opening of School next September. This modern school building should enable teachers to make use of the best of the present day methods of teaching.

The Needs Building Committee hopes to secure an appropriation for a new elementary school in the Centre before the date of the Annual Town Meeting. Such a school appears to be essential in order to house the rapidly increasing enrollment in that section of the Town.

As indicated above, we will require at least five classrooms beyond the capacity of the McFarlin School for next September with every prospect of one to two additional classrooms for each year hereafter. No one can predict the end.

These problems should be met in a sound and aggressive manner in order to provide adequate school advantages for the boys and girls who will all too soon take our places in the life of Chelmsford.

Full appreciation is extended to the School Committee, teachers, parents, other citizens and pupils who have actively participated in the improvement of educational opportunity for the young people of this Town.

Respectfully submitted,

H. MORTON JEFFORDS,

HIGH SCHOOL

Mr. Conrad

The broad objectives of modern education are first, the development of the individual's best self, and second, the development of citizens who will live by, and if need be, die for American ideals. While we, as modern educators, still teach the 3 R's, we know that they are not enough, for we no longer live in a 3 R world. Ours is a jet-propelled, atomic world, animated largely by ancient prejudices and misunderstandings. In this world a man must acquire the ability to live with himself and others in the midst of problems such as human beings have never before experienced.

It is obvious that in addition to teaching the skills of learning, the modern school must be a laboratory for improving human relations. More than the specific subject matter of his particular field, the teacher is expected to know the fundamentals of psychology, group dynamics, guidance, ethics, and a score of other subjects having to do with human growth and social living. Teachers are, however, no more all-knowing and perfect than other people; for example, doctors, electricians, and parents. Nor are they all alike, and indeed it would be most unfortunate if they were. They are only human. Each of them needs the help and understanding of all who cherish the welfare of children and the permanence of democracy. Teachers want to do the best they know how; they should be helped to do it.

Without intelligent, constructive work the future is dark. This work rests mainly with parents and teachers, but authorities agree that it is being increasingly transferred from the parents to the teacher. The teacher in his daily contact with the child shoulders the responsibility of imparting the fundamentals of balanced and successful living. Education may not be a complete answer to our needs nor a panacea for our ills, but neither in our past history has there been, nor in this critical present is there, any shown substitute for the school.

As your high school principal, I feel it my duty to call attention briefly to our needs. We need more class rooms; a library; new physical properties, such as desks, lighting fixtures, adequate shower facilities for our physical education program; a lunch room; and a home economics and an industrial art program.

We at Chelmsford High School continue to meet as best we can the challenge of modern education. We still teach the fundamentals. We continue with the same curricula, making every possible effort to improve both course content and methods of presentation. This past year we have lengthened the time required in the science courses,

and we have added a course in personal typing for academic and general students, while our activity program has been expanded to include a National Honor Society, an after school study club, dramatics, and field hockey.

Once more I should like to emphasize that the public school is a cooperative endeavor. A good school is not an accident, nor does it result from the isolated effort of one individual or one group of individuals, as helpful and inspiring as that effort may be. It is accomplished by the combined efforts of the School Committee, Superintendent of Schools, teachers, and townspeople. I pledge again my best effort, and again I ask of you the interest, understanding, and support that is so vital to successful public school education.

MUSIC

Miss Littlehale

The music program is continuing to grow under the five-fold program:

Singing: Under this heading some very excellent two and three part singing has been developed. In September we started a Jr. High Glee Club which made its first public appearance at the Lowell Union National Bank during Christmas week. The town may well be proud of its performance.

Listening: Considerable attention has been given to the study of instruments of the orchestra. Some excellent charts were made of the instruments; some were drawn free-hand, others were made of pictures which the children had selected from various sources. In this connection many fine records were used. The children have learned to listen intelligently and with apparent enjoyment.

Responding Rhythmically: Those people who saw the square dance contest last February know only too well the benefits which this activity gives. The winners of the trophy to date are:

First year — Westlands

Second year — Princeton

Third year — Westlands

The East Chelmsford School group was accorded the privilege of appearing on a television program because of its excellent work.

Playing: Rhythm instruments are used with many songs in the lower grades.

Creating: Under this activity we have added new verses to familiar songs, songs have been written, and dances have been worked out.

I wish to take this opportunity to thank the teachers who have helped in carrying out this important program.

In the Spring, we started a boys' glee club in the High School. The boys responded enthusiastically and their initial appearance at "Open House" was most promising.

In February, four students of the special glee club, Avis Hulslander, Caroline Reis, Philip Silk and Allan Walker were given the opportunity to attend and participate in the All State Music Festival in Framingham. Singing with a select group under a well known conductor was an inspiring experience which they will never forget.

Since September my work has been in the elementary schools.

Music is largely a social activity and when we perform or listen to it, we find special enjoyment in sharing such experience with others. Music festivals are the means for developing worthy standards of music and help bring about a certain degree of uniformity to the school music program.

The May Festival was held as usual. Kathleen MacElroy was chosen by her classmates to be the May Queen. This festival is a culmination of the years activity and is one in which the children and those who are interested in their musical growth find enjoyment.

In April I attended the National Music Educators Conference, of which I am a member, in Philadelphia. At these conferences much can be gained which is worth the time and money spent.

At this time I wish to express my thanks to all those who have helped me in carrying out the music program, especially the Booster Club which made it possible for the young people to go to Framingham.

John E. Hahn, Jr.

This being my first year as music supervisor at Chelmsford I cannot offer as conclusive a report on the progress of the music program as one should like to have. However, I would like to state that the instrumental program in both the high school and elementary schools is functioning very well.

A program similar to that of last year is being maintained, in that the band members have lessons three days a week, one period per day. There is also a rehearsal for the entire band one day a week after school.

Two days a week lessons are given at the elementary schools so that each student has one lesson each week.

I am very pleased to say that the band has impressed me very much. The reading ability of the students on the whole is very good

and I can truthfully say it is one of the best sounding high school bands I have ever heard. This of course being the result of the excellent work done in the years previous to my appointment by my predecessor, Mr. Bernard Larkin.

The band performed at every football game and impressed the spectators with various drills and formations at each half time.

The annual band banquet at Christmas time was held in the Congregational Church in North Chelmsford, and proved to be a very successful affair.

Prior to the banquet the band members traveled throughout the sections of Chelmsford and played Christmas Carols for the "shut-ins" and elders in the town. I should like to mention here that the transportation provided for the band, twirlers and cheerleaders by the school department has been excellent.

The Glee Clubs are showing good improvement in part singing. There is some evidence of shyness on the part of the singers when performing in front of audiences but this is being overcome by increased appearances before such audiences.

The mixed glee club performed at a Christmas Party held at the St. John's Church in North Chelmsford. The same group is also giving two performances in January. One program for the Rotary Club of Lowell and one for the members of the Unitarian Church in Chelmsford Centre.

The instrumental program in the elementary grades is being expanded as much as time permits, with beginners being added to the groups of students already studying instruments. This work being of much importance as it is here in the grades that the nucleus for a successful high school musical program is formed.

With the ever increasing use of music in all forms on radio, television and motion pictures, it is becoming more and more apparent that we must offer along with our other subjects a music program which will enable the student to share musical enjoyment with others and experience the joy of self expression through music, whether it be with an instrument or with his own voice.

ART PROGRAM

E. Ruth Greenberg

The art program is based on the following major objectives:

1. Stimulating creative abilities in all children:
Originality and creative expression is encouraged in all children.

2. Helping the children to develop powers of observation:
The child is encouraged to judge his work and to observe line, form, color, light and dark, texture (art elements). This will help him to translate, graphically, his thoughts and ideas.
3. Building a capacity for appreciation:
Appreciation grows out of the combination of seeing and doing. The children are exposed to the best works of man and nature so that everyone may enjoy beauty in all of its visual forms.
4. Preparing them for a richer, and fuller life:
Art experiences which will help them in their daily living, will be of great value to them, both now and in the future.
5. Discovering and guiding the talented:
A great responsibility is the recognition and guidance of the talented. Encouragement and careful guidance is important, but at the same time, understanding is vital.
6. Helping the children to develop desirable social habits and good citizenship:
Class projects are excellent means for providing experiences in responsibility, cooperation, and initiative.

In the high school the course is so planned as to provide a foundation for those who wish to pursue a career in the art field, as well as for those who wish to enjoy art as a hobby. It includes experiences with a variety of materials, in both fine and applied art, and covers projects in design and color as well as lettering, sketching, painting and crafts.

Besides the regular work that is carried on in these classes, there are many other activities in which they actively participate. Some of these are the decorations made for the various social functions carried on by the different classes, posters and signs for announcing school events, and decorating the school for the Christmas season. The results of these activities are enjoyed by both students and faculty.

In the elementary schools, there are projects with various materials, such as water colors, clay, paper sculpture, and papier mache, as well as sketching, painting, craft work, and decorating for various holidays. Projects are carried on, not only with commercial materials, but with scrap materials found around the home, as well.

In November, a poster contest was held for the third through the eighth grades and sponsored by the Chelmsford Fire Department. This annual event encourages the children to participate actively in expressing their ideas on fire prevention.

Early in the year, the upper grades of the elementary schools studied the principles of design, and then carried out these principles in various projects, and paintings.

The lower grades were actively involved in sketching, painting, and working with various media, including both commercial and scrap materials.

PHYSICAL EDUCATION

Boys—Mr. Cizek

The teaching of physical education in the Chelmsford schools includes the common emphases of physical education methods which are concerned with emphasizing ways to develop skill; "selling" physical education to pupils; teaching cooperation to pupils; and understanding and influencing the child and adjusting the program to him. The development of strength and endurance is emphasized in the high school.

The physical education program in the grammar schools is divided into two phases. This division is necessary because of the age groups involved. Further division of these groups is necessary because of the climate.

In the fifth and sixth grade group the indoor program consists of basic tumbling skills where facilities are available. Skills in handling a basketball, fundamental boxing techniques and games of low organization are also taught indoors.

Outdoors, these students are taught the basic skills involved in the game of football. Speedball is introduced in a reserved manner. Baseball skills are taught and demonstrated during the spring season. Games of low organization and relays are also utilized in the outdoor program.

The students in the seventh and eighth grades are taught the more advanced skills of football and speedball while the outdoor program is in progress. In the fall four schools were involved in a series of touch-football games during the gym period. The advance skills of baseball are taught in the spring. Group and team games are utilized extensively to teach the various skills involved in the major sports played indoors and outdoors. A series of excellent movies demonstrating the rules and skills of basketball, football and baseball are used to help facilitate the teaching of these numerous skills. Boxing and tumbling make up a part of the indoor program where the facilities are available.

A basketball league is conducted during the winter months at which time the students have an opportunity to practice the skills learned during the physical education classes. Similar competition is made available during the baseball season.

The high school program is also divided into two phases, indoor and outdoor. Regardless of the location, the class is always started with exercises that are intended to develop the larger muscles in the body. Out-doors the exercises are followed by football, speedball, volleyball and relays in the fall. In the spring, softball and track are added to the aforementioned activities.

Indoors the program is built around gymnastics and tumbling. Gymnastics and tumbling are included in the physical education program because of the strength and skills that are developed through participation in this sport. Since there is no other activity to develop fully upper body strength, ability and balance this sport occupies a prominent place in the high school physical education program. Basketball, volleyball and relays are utilized to supplement the more rigorous activities of gymnastics and tumbling.

The extra-curricular program conducted for the high school students is designed to provide recreation, relaxation and enjoyment during the after school hours. This program consists of a bowling league, basketball league, gymnastic club and volleyball league.

One of the high points of the physical education program is the Field Day conducted in May. All schools take part in the activities which include competition in the sundry track and field events.

Girls—Miss Cordingley

Physical education has many objectives; the physical, the emotional, the recreational, and the mental are among them. All of them are important, but too often the recreational objective is overlooked. More and more physical educators are coming to realize the importance of the recreational objective. Most programs today are aimed at giving the children activities with carry-over value— activities that can be used for recreation out of school. This type of program has to be sacrificed in many communities because of lack of equipment and facilities. Chelmsford is one of these communities. Some carry-over activities can be taught, but there are many more which have to be neglected. Where the situation is not ideal, the program must be adapted to fit the facilities.

The need for recreational education in high schools today is great. We must try to teach the children not only the activity, but also give

them knowledge concerning physical education and recreation. They should know why they have to take part in physical education classes; what good it will do them; why they need activities to take care of their leisure time. Besides developing skill and acquiring knowledge, the pupils learn how to get along in a group, how to follow directions, they learn about cooperation and sportsmanship. The physical activity serves for improving coordination, flexibility, agility, muscular strength, etc. Every objective is equally important—none should be overlooked.

The program this year in the elementary schools has to be limited. Because of the increased number of pupils and classes, it has become impossible to visit each grade weekly. Classes which were combined in previous years are now so large that they must be taken separately, therefor, the first four grades (and in one school the first five grades) suffer. They are allowed but one half hour of physical education every two weeks. The time allotment in the upper grades is a little better, varying from thirty-five to forty-five minutes weekly. Because of the inadequate facilities in most of the schools, classes in the winter and on rainy days are poor. Space is limited; the rooms in which we play are often cold and damp; in one place no balls may be thrown.

The activities for grades one and two include all types of games, simple relays, rhythms, singing games, memetics and story plays. The games in these grades are fairly simple and of low organization. The children learn how to skip, hop, run, jump and throw and catch balls. In the third and fourth grades, the games become a little more difficult. Team games of low organization are introduced. Relays and rhythms are also advanced. Singing games and memetics are still taught.

Starting with the fifth grade the girls and boys are separated in the classes. Here the activities are mainly lead-up games to team sports such as softball, rhythms, folk dancing, marching, posture, relays, team games and games of higher organization. In the seventh and eighth grades, team sports are more prominent. Field ball was introduced this year, and also soccer lead-up games. Team games, relays, folk dance, posture and marching are also included. In the spring, softball will be taught and a girls grammar school league will be conducted again.

In the high school, the girls have two forty-five minute classes each week. Another class was added this year, thus making the classes smaller. The average class has about 30 girls. High school activities have included field ball, soccer, speedball, posture, gymnastics and

basketball. During the rest of the year instruction will be given in volleyball, work on the parallel bars, tumbling, field events and softball.

Field hockey was offered as an organized sport for the first time this year. The team made progress, and should really do well next year. Also offered for a varsity sport is basketball. In the spring, an intra-mural softball league will be started.

Health teaching has been purely incidental. However, I hope to be able to acquire some films for use in the grammar schools.

HEALTH

Helen M. Jewett, R.N.

The School Nurse devotes her mornings to visiting the various schools, checking the children with the principals and teachers. Home calls are usually made after school hours. A call to the McFarlin School any time during the day is relayed to me.

The State Department of Health changed the rules governing physical examinations. More time is spent on each pupil so that he or she may be more thoroughly tested. Dr. Blechman and Dr. Boucher examined grades 1, 4, 7 and Juniors in High School this fall. This will mean that each pupil will be checked four times during his schooling in Chelmsford.

The vision of the pupils in grades 1, 3, 5, 7 and Freshmen and Juniors in High School will be checked each year with the Massachusetts State Vision testing machine. The State Department of Health insists that any child who fails on this test should be taken to the family eye specialist and that his recommendations be followed.

Immunization clinics were held in March and April in all the schools by Dr. Blechman and Dr. Horan. Sixty-five children who had never been immunized received the triple vaccine. (Diphtheria, Whooping Cough, Tetanus) one shot every three weeks for three doses. In addition there were two hundred Booster shots (Diphtheria, Tetanus) given. We feel that our town children are very well protected against Diphtheria.

Dr. Horan and Dr. Blechman vaccinated sixty-five pre-school children at our clinic in April.

Last year there were 280 pupils receiving work at the dental clinic. This year there will be over 400 taking advantage of this opportunity.

The High School Health Program was carried on throughout the

year with periodic talks by physicians, dentists, state nutritionist and tuberculosis workers. Also your school nurse talked on various phases of Health and on many occasions illustrated these programs with movies.

The health program in the elementary schools consists in the distribution of booklets, posters, related materials, movies and film strips. Discussions vital to the physical well-being of all have also been stressed.

Actual work accomplished during the past year is listed below:

Pupils inspected in schools (pediculosis, etc.)	2248
Number visits to schools	254
Number of visits to homes	156
Number of first aid treatments	344
Number examined by the school physicians	655
Number examined by the school dentist	357
Number sent or taken home for illness or suspected contagious diseases	184
Number examined for eyes	960
Hearing to be done in January 1953	
Talks on Health and Hygiene	78
Individual instruction to pupils	108

Treatments secured:

Medical	6
Surgical	14
X-ray	2

Number of pupils accompanied to:

Doctor or Hospital	14
State Clinic	4

My aim has been to work with the classroom teachers in helping the children realize the meaning of good health and how it is maintained.

SCHOOL LUNCH PROGRAM

Mary E. Stevens

The object of the School Lunch Program is "to improve the health of the nation's children through more and better school lunches at lower cost."

The Federal Government, through the Massachusetts Department of Education, assists both financially and by providing "abundant foods" or surplus commodities.

A hot lunch is being provided for which the standard is set by the Federal Government and which includes $\frac{1}{2}$ pint whole milk, 2 ounces of protein (meat, fish, cheese, peanut butter, egg or dried beans or peas), $\frac{3}{4}$ cup of vegetables and/or fruit, 1 slice bread and butter or margarine. This provides from $\frac{1}{3}$ to $\frac{1}{2}$ of one day's nutritive requirements and children are encouraged to eat the complete luncheon.

About 400 lunches per day are now being served in five town schools in addition to recess and luncheon milk which is also subsidized by the government. There may be no profit from luncheons and all income is used in the School Lunch Program.

"A school lunch program which realizes its full educational possibilities contributes to the conviction that health is a way of living, and through the cooperation of home, school and community makes its contribution to improved health and physical fitness of the individual and thus to community health."
